Inspired by you!

STEP INTO THE WORLD OF OUTWELL '18

Welcome

TO OUTWELL® '18

We are aiming to extend the market-leading position of Outwell® even further with exciting new tents, awnings and camping equipment, developed in line with evolving consumer expectations. That market-leading position is underpinned by our clear identity as the premium brand delivering the reliable home-from-home comfort expected by discerning campers. The clear identity is built on our commitment to first in the field innovation, quality, function, performance, reliability and integrity.

Of course, we do not do this alone and we never forget the commitment of our retail partners. To all of you and your talented teams, we say a sincere "Thank you!" Your enthusiasm for Outwell brand values forms the frontline of our shared success. We have built a dynamic brand together that is at the heart of ensuring that families can enjoy unforgettable moments together outdoors.

In these pages, you can see that our outstanding collections offer the opportunities to deliver another positive year for us all in this rapidly-evolving market. Alongside this catalogue, we have introduced another that focuses on our unrivalled collections of caravan and drive-away awnings.

Consumer demand continues to be driven by the sustained communication of Outwell quality and performance through all channels and at every opportunity. Throughout 2018, we will be stimulating sales through creative marketing initiatives across print and digital media in concert with our interactive social media strategies.

In your hands, you have the finest tents and camping equipment in the world. Let us go forward together for another outstanding year.

"Year on year, Outwell innovation and flair, allied to our Scandinavian heritage, delivers exceptional home-from-home comfort in award-winning collections of tents and camping equipment. Working closely with our retail partners, we are looking forward to another successful year!"

HENRIK ARENS · MANAGING DIRECTOR

"Through these pages, you will clearly see the commitment of Outwell to innovation, quality and performance designed to ensure family campers enjoy unforgettable moments together in comfort and style."

Home-from-home comfort

"Developing concepts from creative imagination on pen and paper through prototype evaluation and pre-production trials to polished production Outwell designs is a rigorous process that relies on many stages and departments."

SØREN BJERRE BØGH, R&D

DESIGNED IN SCANDINAVIA

BY OUR OWN DESIGNERS

Based in Denmark, Outwell enjoys a proud heritage that places the highest value on partnerships, delivers commercial success and has integrity at its heart.

Building on our strong Scandinavian heritage, our inspired designers stamp our products with the hallmark of Outwell premium performance through the technical excellence and style flair brought to functional innovation. Finding inspiration in the landscapes they enjoy throughout the year, the creative imagination of our designers transforms concepts developed through experience into stunning collections of outstanding tents and equipment that extend our unrivalled reputation for ensuring home-from-home comfort.

The processes explored by our sourcing team in finding the right fabrics, coatings, materials and components are complex and demanding as befits the high standards we are renowned for across the market. Working in close co-operation with our Research and Development department, our sales and marketing teams offer clear feedback and professional expertise on product viability, market trends and opportunities to be explored in achieving sustained commercial success.

*We love perfection.
It's all in the
little details.*

Quality assurance is critical to meet the high expectations of discerning campers and rounds off the challenging process of product development that begins with ideas and team discussions and ends with happy families sharing unforgettable moments outdoors. Our in-house Research and Development department works closely with our sourcing teams in our Far East office. Excellent relationships established with production facilities over many years are underpinned by mutual respect and rigorous quality control systems to maintain the integrity of our premium market-leading position.

We all share the pride in our designs winning top awards across Europe from demanding media platforms that serve the best interests of their readers. So do we, of course, and that focus is seen in positive product reviews, on campsites and in upbeat sales.

Our own purpose-built wind and rain testing facility in Give is designed to subject tents and awnings to the most exacting conditions. Only those fabrics and designs that exceed the challenges survive. It's a clear practical demonstration of the ethos that motivates and guides us all.

Not all concepts make it through the demanding processes of development. That's as it should be as imagination should not be constrained by any practical considerations. It's our closely integrated teamwork that not only works as a filter but also guides the processes that deliver exceptional innovation and sustained commercial success.

We design and deliver the finest family tents and camping equipment in the world and are delighted to have you with us on the journey.

News for 2018

HOME-FROM-HOME COMFORT GUARANTEED!

With new quality products, Outwell continues to deliver the home-from-home comfort that families want on camping holidays, in versatile designs that are better than ever in 2018. Every aspect of campsite life has been addressed with imagination and style to ensure that all the family enjoy outdoor life safe in the knowledge that they can rely on Outwell.

As the premium brand in the family camping market, Outwell sets the pace in category and product innovation year on year backed by assured quality in product and service. 2018 is no exception with further progress in concepts and detail throughout inspired by our Scandinavian heritage. All are delivered with our design flair to reinforce the signature style of our brand identity and extend our market position. Outwell tent and camping equipment collections are designed to raise the bar of home-from-home comfort for family campers to new levels. From Master Bedrooms, sleep systems and groundbreaking sleeping bag design to the variety of our exciting furniture collections, fabrics, materials and components are chosen to work in harmony with concept, colour and design to meet, exceed and extend consumer expectations. Standing out from the crowd is where we want to be and where we will remain. In that way, we stay ahead of the game, setting the agenda without compromise and continually developing the finest tents and camping products in the world.

BRAND DNA

Clear themes run through all our tent collections, delivering a consistent message of quality, style and inspired design based firmly in our innovation heritage. All collections enjoy strong colour themes with smart embossed fabric, tinted windows and our signature luminous piping, reinforcing the essential Outwell DNA of our brand identity.

TENT COLLECTIONS

Smaller tent designs have been introduced into each collection whilst maintaining the essential signature style, quality and innovative features that characterise the Outwell brand.

Anticipating evolving market perceptions and demands, each offers a smaller pack size and weight with no compromise in comfort and performance.

COLLAPS COLLECTION

The groundbreaking Outwell Collaps Collection has been consistently successful since its launch some years ago.

It continues to lead the field with a unique combination of innovation and superb style updated for 2018 with two new colours (Deep Blue and Terracotta) and new designs that deliver practical performance.

NEW FURNITURE

From the lightweight concept and colour palette to functional detail, our Scandinavian design heritage is very much to the fore in our new Furniture Collection.

With a wide variety of distinctive seating solutions for outdoor family comfort on site, at the beach or in the garden, it's a clear market leader.

NEW COOLBAGS

The chic appearance, stylish colours and practical designs of our new smart Coolbags add fashion to function when visiting the beach or park.

Combined with reliable performance, easy care materials, flexible carrying options and range of sizes, they're ideal for picnics, parties and outdoor events.

COLIBRI SLEEPING BAG

Colibri packs innovation, versatility and performance in a design that takes sleep comfort to the next level.

Its ingenious options for opening allow campers to move around freely through the inspired versatility of wings and zips that integrate sleeping bag quality performance with duvet flexibility and comfort.

NEW GRILLS

The Outwell Grill Collection combines our inspired innovation and outstanding Scandinavian design flair.

Careful consideration of campers' needs has resulted in a range of compact models that offer a wide choice to extend campsite cooking flexibility.

HOME-FROM-HOME COMFORT

in furniture!

Inspiration for Outwell Furniture Collections springs from our Scandinavian style heritage and quality standards, matching cool colourways, designs and materials to underline and extend our market leading position. Home-from-home comfort is at the heart of our drive to help families create unforgettable moments together outdoors and runs throughout. Outwell comfort means delivering functional innovative and stylish furniture with innovation and style that adds new dimensions to life on site.

This year, we are introducing more furniture collections than ever before. All of them have Outwell quality and our Scandinavian design heritage as their signature of consumer appeal. Our designers let their imaginations soar with designs based on insight into what the new wave of family campers are seeking. Versatility is key with purchasing decisions based even more on comfort and convenience with flexible use an important consideration.

From padded designs also ideal for use on the garden patio to cool inflatable furniture that could sit as comfortably in living rooms as in tents and awnings, Outwell furniture is light, strong, hardwearing and takes up little space. New collections, new products plus new colours, patterns and fabrics feature throughout and offer a wide variety of options to meet all tastes and expectations.

Our new Inflatable Furniture Collection combines a modern take on traditional

shapes with crisp styling to create a chair, sofa and ottoman in original designs that are unmistakably Outwell. Designs such as our Lake Superior two-person sofa, take comfort to new levels, adding practical sophistication to the campsite experience. With manual or built-in pumps for quick and easy inflation, it's a breeze to inflate them quickly and securely.

Our Folding Furniture Collection enjoys smart new colour options that complement our tent collections with a new Padded Folding Range that combines durable, well-padded, two-tone fabric over sturdy steel frames for truly exceptional lightweight comfort in two styles of chair and a sofa. Versatile ingenuity can be seen in the new Weston Hills chair design that allows the removable cover to be rolled up to use as a neck or lumbar support for adjustable comfort or reversed for a different colour shade.

Through our comprehensive camping furniture and ranges, we not only deliver seating comfort

but also address other aspects of comfort from beds and loungers to camping equipment transporters. Plus, of course, outstanding tables, kitchen tables, wardrobes and cupboard storage options that add to a relaxing holiday for all the family. The wide range of designs and materials means there are furniture options for all campers to ensure comfort and convenience.

Innovation runs throughout Outwell Furniture Collections and is highlighted by our introduction of magnetic doors in kitchen tables, cupboards and wardrobes. Their doors are formed with fibreglass frames and secured shut with sewn-in magnets for noise-free opening and closing.

Comfort, convenience and choice are our watchwords in the innovations and style seen throughout our unbeatable Furniture Collections that offer solutions for every aspect of camping life and that complement our tents and awnings.

Scandinavian design is a design movement characterised by simplicity, minimalism and functionality that emerged in the 1950s in the five Nordic countries.

FLYSHEET MATERIAL OVERVIEW

Many manufacturers try to capture our Outwell style but our commitment to family campers is more than skin deep. Our market-leading innovative features are backed by the very best materials, components and manufacturing techniques.

Our unique Outtex® polyester and polycotton fabrics are designed for optimum performance that meets the needs of a tent collection's target audience. We use 100 per cent polyester fibres and our polyester fabrics offer a high resistance to UV damage and superb tension in wet conditions to keep the tent stable and minimise flapping. The tough nature ensures it retains its good looks, enhanced by subtle embossing, throughout its life while the Durable Water Repellent outer treatment works with the PU-coating on the inside of the fly to ensure the high hydrostatic head needed to keep out the rain.

For ultimate comfort, our Airtech polycotton mix is densely woven to allow moisture vapour to escape while keeping out water droplets. It creates a condensation-free microclimate that feels cool in the heat and warm when outside temperatures fall while keeping out rain and dew.

For ultimate performance

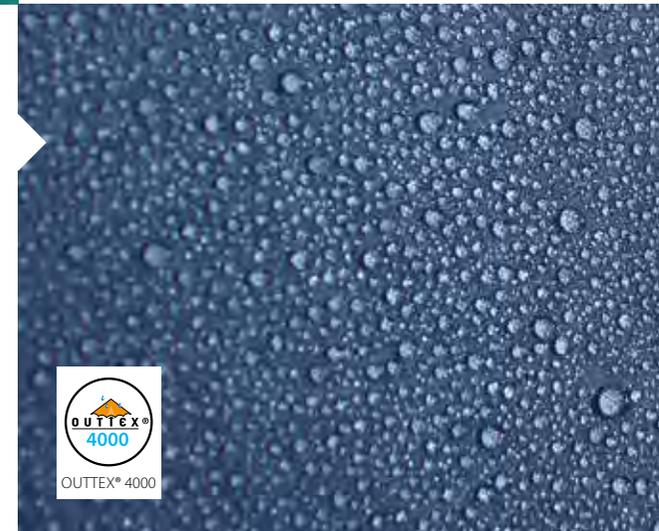

OUTTEX® 3000

Exclusive Outwell flysheet fabric with a reliable 3,000mm hydrostatic head waterproof rating.

OUTTEX® 4000

Exclusive Outwell flysheet fabric with an effective 4,000mm hydrostatic head waterproof rating.

OUTTEX® 5000

Exclusive Outwell flysheet fabric with a superior 5,000mm hydrostatic head waterproof rating.

OUTTEX® AIRTECH

Exclusive Outwell polycotton fabric for premium performance and a self-regulating interior climate.

OUTTEX® 6000 HD

A special process creates our ultra-rugged High Density weave for superior performance and looks.

OUTTEX® 6000

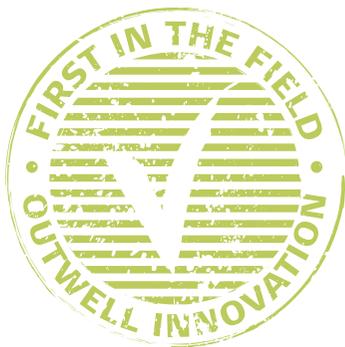

This specially commissioned flysheet fabric benefits from our highest ever hydrostatic head waterproof rating.

TENT FEATURES

- defining the future

At Outwell we never say 'That's good enough!' We continually assess, refine, develop and then introduce functional features in our exceptional tent collections every year. All are designed to meet practical needs and to raise our standards of home-from-home comfort.

OUTWELL EASY ACCESS SYSTEM WITH MESH

Main door and mesh fold to one side and the groundsheet lies flush with the ground for safe, easy access.

NIGHT SKY CEILING

Used in inner tents, the Night Sky Ceiling helps campers to enjoy a comfortable night's sleep by cutting down internal light levels – great for adults as well as children. A clever solution for a daytime nap, early night, a lie-in to keep early-rising children asleep longer.

EMBOSSSED FLYSHEET AND INNER FRONTS

Adding to the smart style of our polyester tents, the fabrics enjoy subtle embossing with the Outwell logo which enhances their appearance and shares a discreet message that the owners pick only the very best for their family's camping.

CABLE ENTRY TO INNER TENTS

The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable entry points enable secure access without compromising safety.

DUAL PROTECTOR

An Outwell Dual Protector extends a tent's life by reducing UV damage to the roof and acting as a barrier against contaminants like bird droppings and tree sap. It also reflects the sun's heat and keeps the tent cool if used silver side up or reversed to reveal the black surface that soaks up the sun to heat the tent. When used silver side up a broad, deep, roll-up/zip-off canopy matches the tent's side door to create a sun porch when poled out.

TINTED WINDOWS

With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views out with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits and now feature in every Outwell tent.

OUTWELL ONE-GO INFLATION TECHNOLOGY

Outwell One-go Inflation Technology is an inspired innovation that allows campers to plug a super-efficient manual pump, or optional electric tent pump, into a single inlet valve and quickly inflate the largest of tents – plug in, pump and go! Isolation valves help maintain structural stability.

OUTWELL FLOATING GUYLINE SYSTEM

The inspired Outwell Floating Guyline System reduces pitching time, flags up the risk of tripping and simplifies tension adjustment. Two dark-coloured guylines connect the tent to a single luminous guy that is pegged out and appears to float above the ground.

PANORAMA ROOM AND FRONT

Enabling families to make the most of the weather, a panorama front acts as a conservatory to enhance living room space and views whilst the panorama room delivers the same as a separate living space to extend families' outdoor living experience.

OUTWELL WAVE-SHAPED HANGING POINT SYSTEM

Tackling the problem of the strain created when inners are hung from the outer, our designers developed the Outwell Wave-shaped Hanging Point System which spreads stress evenly over the seam rather than concentrating it in a single area where it may cause damage over time.

MASTER BEDROOMS

The enhanced space of the Royal and Ambassador Master Bedrooms has been created by increasing length and adjusting the cut of the rear wall to increase standing headroom, providing more scope for moving around and furniture. Windows (Royal only) and cable entry points add to the convenience and comfort.

LUMINOUS PIPING

Extending our signature luminescent piping throughout the tent collections adds a touch of extra style that complements the main tent fabric and highlights our brand identity with a more cohesive theme readily spotted on site as a clear mark of quality.

REAR VENTILATION SYSTEM

All polyester tents (except Encounter Collection) have the unified ventilation concept offering easy adjustment with more flexible options for fresh air flow through the tent and a streamlined appearance for a sleeker look to the tent designs.

AIR SYSTEM PROGRAM

Three systems of air tube technology construction: Advanced Air Tube System has one frame of inter-connected tubes with isolation valves; Power Air Tube System uses separate tubes with an extra apex tube manually placed for greater stability; Rigid Air System uses separate air tubes.

LUMINOUS GUYLINES

As active campers, Outwell designers developed an inspired, practical solution to the problem of tripping over unnoticed guylines – a simple solution based on assessing and addressing the problem that others have seized on since.

OUTWELL SEALED GROUND SYSTEM

A sealed-in groundsheet is the best way to keep draughts, insects, dirt and water out of a tent and is an early example of the camping solutions typical of Outwell. When the groundsheet is an integral part of the tent it ensures all-weather protection from the ground upwards.

TENT CARPETS AND FOOTPRINTS

Comfort and protection underfoot are guaranteed with a carpet and a footprint. Carpets offer extra insulation and cosy style to tents' living areas. Placed between the tent floor and the ground to keep the groundsheet clean, a tent footprint is a durable barrier against debris and dirt.

UNIVERSAL INNERS

These inners can be used as two bedrooms, one larger room by unzipping the centre panel or one side can be taken down completely to create extra living space within the tent. Designed to be flexible, they are a practical innovation for the changing needs of families and groups of friends.

OUTWELL WIND STABILIZER SYSTEM

The patented Outwell Wind Stabilizer System is a huge and important innovation in tent stability, proven in development and in the field. It creates a direct attachment point between the outer tent, tent pole and peg for reliable security that spreads the strain of gale-force, gusting winds.

SLEEP COMFORT

The industry standard allowing 60cm width per person for sleeping compartments is not always enough; Outwell Sleep Comfort allows 70-80cm for more individual freedom. Our own Sleep Comfort advice suggests the number of people – adults and children – that can settle down comfortably for a great night's sleep.

RAIN SAFE ENTRY

Offering flexible extra protection and storage outside the tent, the Rain Safe Entry feature is designed as a generous porch over doorways for campers and the tent's interior to avoid a soaking from vertical and wind-driven downpours, or water run-off, whilst entering and leaving.

OUTWELL EASY PEGGING SYSTEM

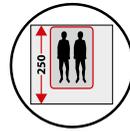

Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and reliable stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

TENT ICONS

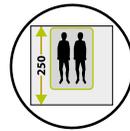

Each year we deliver groundbreaking innovations for the benefit of discerning campers. It's an excellent record and we're proud of the rigorous way in which our designers approach each challenge to bring a huge amount of original style and practical detail to the market.

Each tent is a careful blend of imagination, inspiration, style, technical innovation, features, fabrics and components. Each has a big story behind the headline and that story is best delivered in a visual way, enabling fast overviews and clear cross-comparisons. We use icons to quickly provide clear, no-fuss identification that is easily communicated in store and online. These simple, effective symbols sum up complex product solutions in line with our straightforward approach to business.

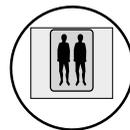

ROYAL MASTER BEDROOM

Colour-coded red, the 250cm length and steep rear wall offer lavish floor space and headroom throughout whilst windows offer light, sight and ventilation options. Cable port brings power to the bedroom.

AMBASSADOR MASTER BEDROOM

Colour-coded green, the 250cm length offers plenty of floor space whilst the cut gives more headroom. Cable port brings power to the bedroom for electrical goods like bedside lights.

PREMIER BEDROOM

Colour-coded black, the minimum 215cm length offers ample floor space for two campers to stretch out in comfort.

OUTWELL EASY ACCESS SYSTEM
Main door folds to one side and the groundsheet lies flush with the ground for safe, easy access.

WIND STABILIZER SYSTEM, FORCE 9
The key innovation in maintaining overall tent stability; wind tested against the Beaufort scale to strong gale Force 9.

AERODYNAMIC STORM PROTECTION
The aerodynamic shape of the tent ensures stability.

NIGHT SKY CEILING
Reduces the amount of external light in the bedroom.

OUTWELL EASY ACCESS SYSTEM WITH MESH
Main door and mesh fold to one side and the groundsheet lies flush with the ground for safe, easy access.

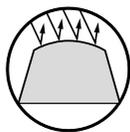

WIND STABILIZER SYSTEM, FORCE 10
The key innovation in maintaining overall tent stability; wind tested against the Beaufort scale to whole gale Force 10.

PUMP INCLUDED
Supplied with all our Air Tube technology tents, our easy to attach, highly efficient manual one-way high capacity air pump makes short work of inflating our inflatable tents.

POWER STABILITY SYSTEM
Our exclusive system of inter-connecting steel poles ensures the sturdiest of tent structures.

THERMO-REFLECTIVE COATING
A Thermo-reflective coating is a barrier to radiant heat and is used above the inner tent to assist create the ideal ambience for sleep comfort.

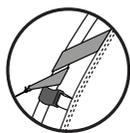

FIRE RETARDANT
Material treated this way meets all the latest regulations regarding tent fabric safety.

ADVANCED AIR TUBE SYSTEM
Inter-connected air tube frame with one inflation valve, featuring isolation valves, and one full horizontal tube along the roof.

POWER STABILITY SYSTEM
Our exclusive system of inter-connecting alloy poles ensures the sturdiest of tent structures.

WIND GUARD SYSTEM
The Outwell Wind Guard System ensures outstanding stability in high winds by securely bracing the tent flysheet via the sturdy poles to spread the wind force loading.

AERODYNAMIC STORM PROTECTION, FORCE 8
The aerodynamic shape of the tent ensures stability. Wind tested against the Beaufort scale to fresh gale, Force 8.

POWER AIR TUBE SYSTEM
Offers individual tubes that are inflated and deflated separately via external valves. An extra tube is attached manually for extra stability.

DURATEC POLES
Exceptional strength and rigidity achieved using our own glassfibre-based blend of materials.

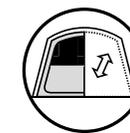

WIND STABILIZER SYSTEM
Whatever the weather delivers on site, this key innovation helps maintain exceptional tent stability.

AERODYNAMIC STORM PROTECTION, FORCE 9
The aerodynamic shape of the tent ensures stability. Wind tested against the Beaufort scale to strong gale, Force 9.

RIGID AIR SYSTEM
Features individual tubes that are inflated and deflated separately via easy access external valves.

UNIVERSAL INNER
Versatile to offer one large room, split to create two rooms or having half removed for extra living space.

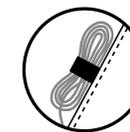

WIND STABILIZER SYSTEM, FORCE 8
The key innovation in maintaining overall tent stability; wind tested against the Beaufort scale to fresh gale Force 8.

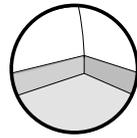

AERODYNAMIC STORM PROTECTION, FORCE 10
The aerodynamic shape of the tent ensures stability. Wind tested against the Beaufort scale to whole gale, Force 10.

ONE-GO INFLATION
Super fast inflation via a single air inlet valve through the inter-connected air tubes.

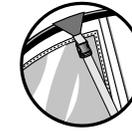

GUYLINE RETAINER SYSTEM
Simple, effective and inspired, this feature ensures campers avoid tangling guylines when packing away or when not needed on site.

SEALED GROUND SYSTEM
Our own specially developed method of sealing the groundsheet to the flysheet.

TWINNED POLES – STEEL/AIR
A mix of air tubes and steel poles for a sturdy and flexible tent structure.

STORM GUYLINE
Strong heavy duty tape creates a super secure guyline for tent extension stability in high winds.

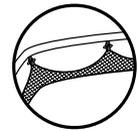

UNIQUE HANGING POINT SYSTEM
Attaches the inners with a toggle through the suspension point taped to the tent for strength and security.

TWINNED POLES – STEEL/DURATEC
A mix of steel poles and Duratec fibreglass poles for a sturdy and flexible tent structure.

DRY ZIP SYSTEM
A simple, effective panel over the length of the whole zip to protect against bad weather penetration.

WAVE-SHAPED HANGING POINT SYSTEM
Attractive solution to reduce the stress placed on inner tent seams.

SCREENHOUSE
A zip-closed mesh screen to keep out bugs when the outer's doors are opened for ventilation.

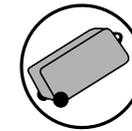

EASY PEGGING SYSTEM
Three styles of colour co-ordinated pegs ensure easy, effective pitching without confusion.

ZIP-UP CURTAIN
With zip opening and closure, it gives full flexibility of choice between total privacy, letting in some daylight or enjoying the views.

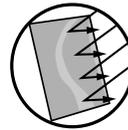

CABLE ENTRY POINT
A securely zipped port allows a mains lead to be run into the tent safely.

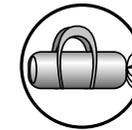

TROLLEY CARRYBAG
Wheeled bag for fast and easy tent transportation.

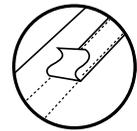

TOGGLE-UP CURTAIN
Well-placed toggle fittings allow flexibility of choice between views out and night-time privacy.

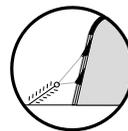

TINTED WINDOWS
Windows with a tinted coating that protects against the sun's glare and provides privacy while maintaining great views out.

CARRYBAG
Bag with straps for carrying the packed tent short distances.

TAPED SEAMS
Extra protection across all seams, the tape ensures no chance of any water ingress.

FLOATING GUYLINE SYSTEM
A single luminous guyline connects two upper guylines to the peg reducing the risk of tripping, speeding up pitching time and making tensioning easier.

SLEEP COMFORT
Our own recommendation for how many campers a tent can sleep comfortably.

TENT GUIDE 2018

Each year, we evolve our tent collections to provide the very latest benefits from Outwell innovation and new materials while addressing market trends, ensuring our target audience enjoys the best accommodation to suit their needs and increase market share in the process.

For 2018 our ten tent collections offer a finely-honed selection of designs that combine original Outwell innovation, style and practicality that drives our cutting-edge progress. From camping in large family groups to couples enjoying a touring holiday, to quick weekends away and the outdoor shelter provided by a utility tent, each Collection addresses specific needs and budgets by balancing complex and diverse factors like use, features, fabrics and components. This year sees us respond to our customers by introducing yet more inflatable tents and smaller models across the board to meet consumer demands.

SMART AIR POLYESTER COLLECTION

Unrivalled innovation, inspired inflatable designs and superb fabric technology have ensured the Outwell Smart Air Polyester Collection is the clear family tent market leader. With stylish home-from-home comfort, our light grey Outtex® 6000 embossed polyester fabric, with luminous piping, is the signature of top quality. Families enjoy the no-fuss reliability of the Outwell Advanced Air Tube System with One-Go Inflation Technology, cable entry points and the exceptional comfort of Royal Master Bedrooms with ample headroom, space for bedside tables plus all-round windows. Integration of Night Sky bedroom ceilings with Thermo-reflective coating above delivers cooler, dark bedrooms. Internal temperature regulation and air flow management is ensured by our flexible ventilation system.

THE SMART AIR POLYESTER COLLECTION

Unrivalled innovation, inspired inflatable designs and superb fabric technology have ensured this stylish Collection is the clear family tent market leader with discerning campers who appreciate the chic home-from-home comfort, safety, stability and no-fuss reliability provided by the highly-acclaimed models.

Hornet 6SA

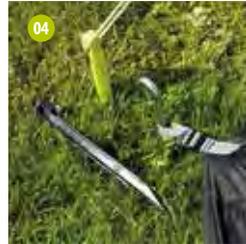

SMART AIR POLYESTER FEATURES

ROYAL MASTER BEDROOMS

Royal Master Bedrooms have enlarged inners, 250cm in length, offering stand up height throughout and more floor space for storage and mobility. With our all-round windows and Cable Entry points, campers can enjoy real and virtual access to outside.

OUTWELL EASY PEGGING SYSTEM

Smart thinking behind our pegs' colour-coding enables campers to use them in the right place first time for fast pitching and reliable stability – grey steel at the corners, luminous pegs with guylines, and black pegs for general pegging.

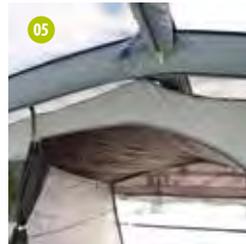

REAR VENTILATION SYSTEM

The Outwell Rear Ventilation System offers flexible options for regulating internal temperature and fresh air flow whilst maintaining effective waterproofing and stability with guyline adjustment.

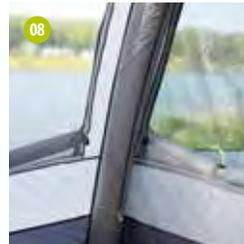

ADVANCED AIR TUBE SYSTEM

Our air tube technology has had a huge effect on the camping market. As a key element of our Advanced Air Tube System technology, this offers one frame of interconnected tubes with isolation valves that help maintain structural stability.

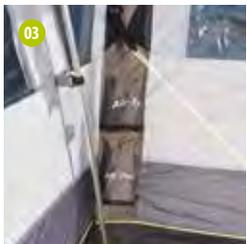

NIGHT SKY CEILING & THERMO-REFLECTIVE COATING

Night Sky Ceiling under flysheet Thermo-reflective coating helps create the ideal ambience for a daytime nap, a lie-in or children waking later in the morning.

TINTED WINDOWS

Our large tinted windows reduce the sun's heat and glare whilst allowing wide views with privacy. The zip-up curtains offer full flexibility of choice between total privacy, letting in some daylight or fully enjoying the views.

OUTWELL ONE-GO INFLATION TECHNOLOGY

Our innovative inflation technology takes away the effort of pitching by enabling campers to plug a highly efficient pump into a single input valve to inflate the largest of tents in a minute. Simply plug in, pump up and relax!

OUTTEX® 6000 EMBOSSED FLYSHEET

Made to our own demanding specifications, this flysheet fabric has our highest ever hydrostatic head waterproof rating and benefits from subtle embossing with our graphic logo and is embellished with our signature luminous piping.

SIDE PORCH

Extending versatility, our large, practical side porch with alloy pole offers extra access, storage option and protection from the weather. Ideal for leaving wet clothes and muddy boots to dry, it's great for keeping toys and equipment safely under cover.

AIR COMFORT COLLECTION

The Outwell Air Comfort Collection offers superb performance and the signature style of our Outtex® 5000 embossed fabric and luminous piping. With our innovative Power Air Tube System, separate tubes are pumped up or deflated swiftly via easy access external valves using the efficient one-way pump with pressure gauge supplied. Gothic-style pre-angled tubes ensure stability with ample headroom; extra air tubes are used to link tubes for greater stability in bad weather. Ambassador Master Bedrooms offer extra space and tinted windows with toggle-up curtains in the living area allow campers to enjoy the view whilst maintaining privacy. The collection features the Outwell Sealed Ground System with a durable groundsheet plus the unique Outwell Easy Pegging System for fast, reliable pitching.

THE AIR COMFORT COLLECTION

Designed expressly with larger families and groups in mind, flexible tent living options and top performing features make the Outwell Air Comfort Collection a real winner. Attention to detail, style and innovation match the signature Outwell image in stunning designs and quality.

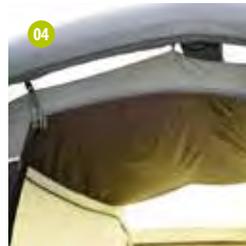

Cruiser 6AC

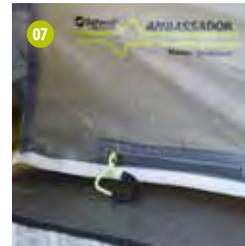

AIR COMFORT FEATURES

01 **AMBASSADOR MASTER BEDROOMS**
At 250 cm in length, Ambassador Master Bedrooms offer generous floor space and headroom for comfort and convenience. Combined with mains Cable Entry points and Night Sky Ceilings, campers can enjoy enhanced levels of convenience and comfort.

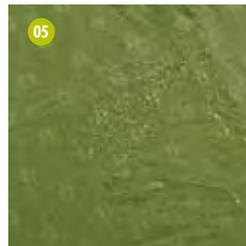

04 **NIGHT SKY CEILING & THERMO-REFLECTIVE COATING**
Night Sky Ceiling under flysheet Thermo-reflective coating helps create the ideal bedroom ambience for a daytime nap, a lie-in or to ensure children wake later in the morning.

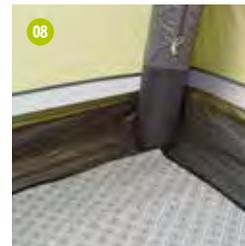

07 **CABLE ENTRY TO INNER TENTS**
The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable Entry points enable secure access without compromising safety.

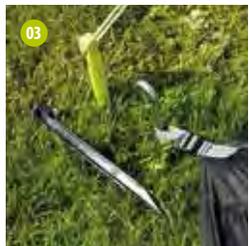

02 **POWER AIR TUBE SYSTEM**
Durable separate tube technology with extra apex tube for greater stability. All pumped up or deflated easily via easy access external valves, using the efficient two-way manual pump with pressure gauge supplied.

05 **OUTTEX® 5000 EMBOSSED FLYSHEET**
Specially commissioned by us, this smart, durable flysheet fabric has an effective, reliable hydrostatic head waterproof rating and enjoys subtle embossing with our graphic logo.

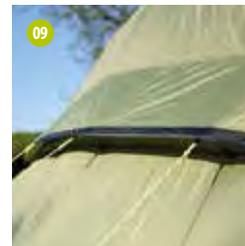

08 **SEALED GROUND SYSTEM**
A sealed-in groundsheet is the best way to keep draughts, insects, dirt and water out of a tent and is an early example of Outwell camping solutions. When the groundsheet is an integral part of the tent it ensures all-weather protection.

03 **OUTWELL EASY PEGGING SYSTEM**
Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and lasting stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

06 **TINTED WINDOWS**
With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

09 **REAR VENTILATION SYSTEM**
The Outwell Rear Ventilation System offers flexible options for regulating internal temperature and fresh air flow whilst maintaining effective waterproofing and stability through zippered closure and guylines adjustment.

FEATURES

- Steel pole frame construction
- Attaches tightly to the main tent for a draught-free fit
- Bathtub groundsheet cuts out draughts, water ingress and crawling insects
- Mud valance avoids tent fabric staining
- Large tinted windows block sun glare, ensure privacy and allow campers to stay in touch with the outdoors
- Reinforcement patch on all stress points
- Adjustable pegging points for pitching flexibility
- Pre-attached guylines for no-fuss pitching
- Fast and easy to pitch and pack away

CORVETTE 7AC

A four room inflatable tunnel tent sleeping seven people comfortably in a 2+3+2 layout, the smart style of the Corvette 7AC offers three zones – wet room, dry room and Ambassador Master Bedrooms – behind a large front door plus two side doors. The tent front area can be zipped off completely in dry conditions for a truly airy feel.

SPECIFICATIONS

- Art. No.: 110647
- Type of tent: Four room tunnel tent
- Sleeps: 7
- Rooms: 3 bedrooms, 1 living room
- Pitching way: Flysheet first or as one
- Flysheet: Outtex® 5000 (100% polyester Oxford / taffeta) with taped seams
- Floor: Double-coated 100% polyethylene, 10,000 mm hydrostatic head
- Inner tent: Breathable 100% polyester
- Pack size: Tent: 52 x 88 cm / Tent Front: 20 x 74 cm
- Weight: Tent: 28.9 kg / Tent Front: 9.8 kg
- Tubes: Power Air Tube System frame for best performance
- Pieces per carton: 1

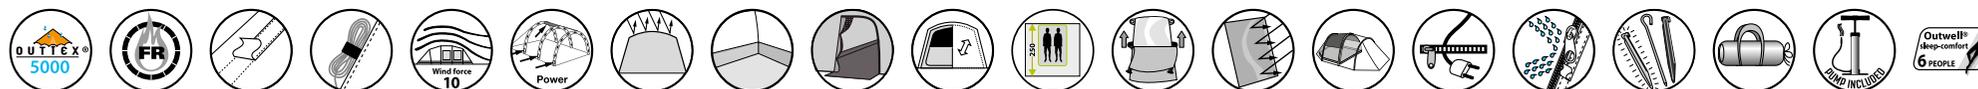

FEATURES

- Power Air Tube System offers durable individual air tube technology, with pre-shaped, Gothic-style tubes pumped up or deflated easily via easy access external valves
- At 250 cm in length, Ambassador Master Bedrooms offer a larger floor area, more headroom and a rear vent
- Night Sky Ceilings in bedrooms cut down light levels whilst Thermo-reflective coating above the bedrooms helps to regulate internal temperatures
- Spacious living area ensures plenty of room to eat, play and relax whatever the weather
- Three interior zones for practical tent for a large family – wet room, dry room and inners
- One-way pump with pressure gauge included for fast, efficient inflation
- Five inflatable tubes with external inflation valve points for easy access
- Large tinted windows block sun glare, ensure privacy and allow campers to stay in touch with the outdoors
- Detachable bathtub groundsheet for front room for flexibility and easy cleaning

OPTIONAL EXTRAS

170409 Fleece Carpet / 170437 Footprint / 110694 Dual Protector

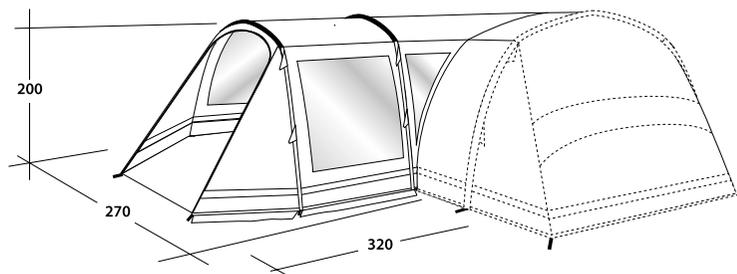

UNIVERSAL AC EXTENSION

Quickly, easily and securely attached to any tent in the collection, the Universal AC Extension offers substantial extra living space as well as versatile storage options. With tinted panorama windows and steel poles in a Gothic style for extra headroom, it matches the tents' smart colour and signature luminous piping.

AIR POLYESTER COLLECTION

Outstanding Air Polyester Collection designs offer smart style and innovative features extending the appeal of our inflatable tents. The Outwell Rigid Air System of separate, pre-shaped air tubes for stability plus ample headroom uses easy access inflation valves for the one-way pump with pressure gauge supplied. In the generously-sized Premier Bedrooms with cable entry points, a Thermo-reflective coating works with our Night Sky ceilings for sleep comfort whilst the Rear Ventilation System ensures simple airflow and temperature regulation. Our Outtex® 4000 embossed fabric delivers reliable weather protection with luminous piping for our signature style. The compact Bayfield 5A and Bayfield 5A front awning are great options for touring and weekend trips whilst the Edmonds 5A offers more space.

THE AIR POLYESTER COLLECTION

Extending the availability of inflatable tent technology and outstanding designs to even more family campers, the Outwell Air Polyester Collection offers a real winning combination. Attention to detail, style and innovation match the signature Outwell image in stunning designs and quality.

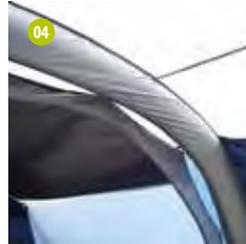

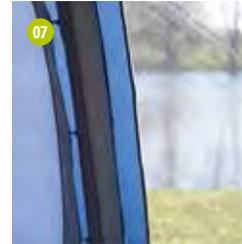

AIR POLYESTER FEATURES

PREMIER BEDROOMS
Our Premier Bedrooms offer generous headroom and floor space for easier access and mobility plus mains Cable Entry points for power, Night Sky Ceilings and the additional benefit of Thermo-reflective coating for integrated sleep comfort.

NIGHT SKY CEILING & THERMO-REFLECTIVE COATING
Night Sky Ceiling under Thermo-reflective coating helps create the ideal bedroom ambience for a daytime nap, a lie-in to ensure children wake later in the morning.

TINTED WINDOWS
With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

RIGID AIR SYSTEM
The Rigid Air System features individual tubes that are inflated and deflated separately through external valves for easy access.

REAR VENTILATION SYSTEM
The Outwell Rear Ventilation System offers flexible options for regulating internal temperature and fresh air flow whilst maintaining effective waterproofing and stability through zipped closure and guyline adjustment.

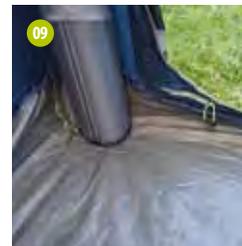

CABLE ENTRY TO INNER TENTS
The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable entry points enable secure access without compromising safety.

OUTWELL EASY PEGGING SYSTEM
Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and lasting stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

OUTTEX® 4000 EMBOSSED FLYSHEET
Specially commissioned by us, this smart, durable flysheet fabric has an effective, reliable hydrostatic head waterproof rating and enjoys subtle embossing with our graphic logo.

SEALED GROUND SYSTEM
A sealed-in groundsheet is the best way to keep draughts, insects, dirt and water out of a tent and is an early example of Outwell camping solutions. When the groundsheet is an integral part of the tent it ensures all-weather protection from the ground upwards.

PREMIUM COLLECTION

Inspired design, sustained innovation and attention to detail are the foundation of the outstanding Outwell Premium Collection of superb poled family tents. They reflect the heritage and qualities that have enabled Outwell to hold its market leading position for more than 20 years. All these versatile tents benefit from our unique Outtex® 6000 embossed flysheets, offering full waterproof protection in smart colours combined with luminous piping for our signature style. Heritage and performance are seen in the Royal Master Bedrooms, cable entry to bedrooms, the Rear Ventilation System, Thermo-reflective coating, Night Sky Ceilings, Outwell Sealed Groundsheet, Outwell Wave-Shaped Hanging Point System, Outwell Easy Pegging System, Outwell Wind Stabilizer System, stylish panorama fronts and tinted windows.

THE PREMIUM COLLECTION

Each one of the smart tents, awnings and extensions of the Outwell Premium Collection combines style and practical comfort with renowned heritage. The truly inspired innovations featured in these superior designs will help campers to build unforgettable family moments.

Montana 6P

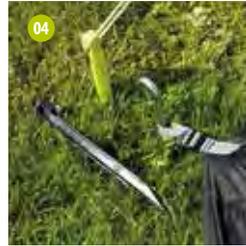

PREMIUM FEATURES

ROYAL MASTER BEDROOMS

Royal Master Bedrooms have enlarged inners, 250cm in length, offering stand up height throughout and more floor space for storage and mobility. With our new long, all-round windows and Cable Entry points, campers can enjoy real and virtual access to outside.

OUTWELL EASY PEGGING SYSTEM

Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and lasting stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

REAR VENTILATION SYSTEM

The Outwell Rear Ventilation System offers flexible options for regulating internal temperature and fresh air flow whilst maintaining effective waterproofing and stability through guylines adjustment.

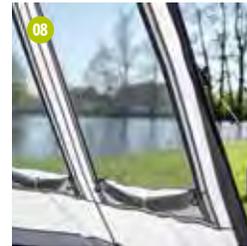

OUTTEX® 6000 EMBOSSED FLYSHEET

Specially commissioned by us, this smart, durable flysheet fabric has an effective, reliable hydrostatic head waterproof rating and enjoys subtle embossing with our graphic logo.

OUTWELL WAVE-SHAPED HANGING POINT SYSTEM

Tackling the problem of the strains created when inners are hung from the outer, our designers developed the Outwell Wave-shaped Hanging Point System which spreads the load evenly rather than concentrating it in a single area where it may cause damage.

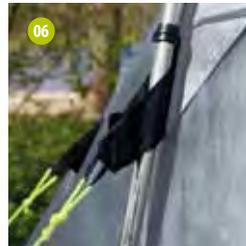

TINTED WINDOWS

With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

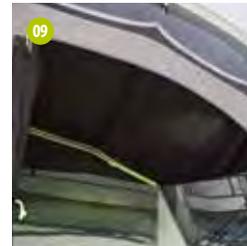

OUTWELL SEALED GROUND SYSTEM

A sealed-in groundsheet is the best way to keep draughts, insects, dirt and water out of a tent and is an early example of Outwell camping solutions. When the groundsheet is an integral part of the tent it ensures all-weather.

OUTWELL WIND STABILIZER SYSTEM

The patented Outwell Wind Stabilizer System is a huge and important innovation in tent stability, proven in development and in the field. It creates a direct attachment point between the outer tent, tent pole and peg for reliable security in gale-force, gusting winds.

NIGHT SKY CEILING & THERMO-REFLECTIVE COATING

Night Sky Ceiling under Thermo-reflective coating helps create the ideal ambience for a daytime nap, a lie-in or children waking later in the morning in bedrooms.

DELUXE COLLECTION

Style, innovation and design detail are at the heart of the buoyant sales of the Outwell Deluxe Collection, offering a wide range of options in poled family camping tents. The signature design character is delivered by the luminous piping complementing the strong colour combinations in designs packed with features, sleeping three to seven people, plus Awning and Extension options for versatile campsite life. The sustained appeal is built on our superb style, market positioning and the first in the field features found throughout the collection that set us apart from and way ahead of others. These include Outwell Wave-shaped Hanging Point System, Outwell Wind Stabilizer System, Outwell Easy Pegging System and our own exclusive Outtex® 5000 waterproof fabric plus our Ambassador Master Bedrooms.

SLEEP COMFORT

**AMBASSADOR
MASTER
BEDROOM**

THE DELUXE COLLECTION

The exceptional Deluxe Collection does not compromise in its dynamic combination of innovative features, reliable designs and superb style. This collection of family tents, awnings and extensions offers great choices for campers seeking outstanding comfort and performance.

Drummond 7

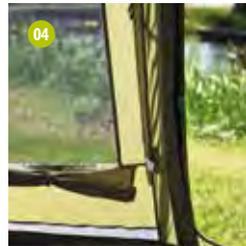

DELUXE FEATURES

OUTTEX® 5000 FLYSHEET

Specially commissioned by us, this smart, durable flysheet fabric has an effective, reliable hydrostatic head waterproof rating and enjoys subtle embossing with our graphic logo.

TINTED WINDOWS

With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

AMBASSADOR MASTER BEDROOMS

At 250cm in length, Ambassador Master Bedrooms offer generous floor space and headroom for comfort and convenience. Combined with mains Cable Entry points and Night Sky Ceilings, campers can enjoy enhanced levels of convenience and comfort.

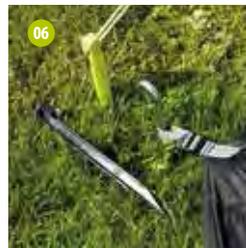

NIGHT SKY CEILING & THERMO-REFLECTIVE COATING

Night Sky Ceiling under flysheet Thermo-reflective coating helps create the ideal ambience for a daytime nap, a lie-in or children waking later in the morning.

REAR VENTILATION SYSTEM

The Outwell Rear Ventilation System offers flexible options for regulating internal temperature and fresh air flow whilst maintaining effective waterproofing and stability through zipped closure and guyline adjustment.

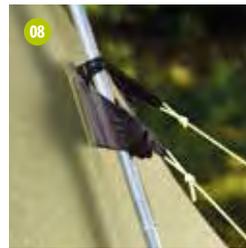

OUTWELL EASY PEGGING SYSTEM

Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and lasting stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

OUTWELL WAVE-SHAPED HANGING POINT SYSTEM

Tackling the problem of the strains created when inners are hung from the outer, our designers developed the Outwell Wave-shaped Hanging Point System which spreads the load evenly rather than concentrating it in a single area where it may cause damage.

OUTWELL WIND STABILIZER SYSTEM

The patented Outwell Wind Stabilizer System was a huge and important innovation in tent stability, proven in development and in the field. It creates a direct attachment point between the outer tent, tent pole and peg for reliable security in gale-force, gusting winds.

CABLE ENTRY TO INNER TENTS

The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable entry points enable secure access without compromising safety.

PRIVILEGE COLLECTION

New tents and updates feature across the competitive Outwell Privilege Collection, reinforcing its leading position as the ideal choice for couples and families, particularly those new to camping, seeking practical comfort on site. The smart colourways of our embossed Outtex® 4000 fabric and signature luminous piping add style to practical designs packed with innovation. All Privilege weekend and touring tents offer generous living and bedroom space with easy tent management from Rain Safe entry to the Premier Bedrooms whilst the Awnings and Extensions add extra dimensions of practical comfort. Sturdy Duratec fibreglass poles help cut down on weight, our patented Outwell Wind Stabilizer System ensures stability and the Rear Ventilation System offers easily adjusted weatherproof air flow.

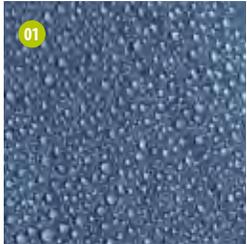

THE PRIVILEGE COLLECTION

The competitive Outwell Privilege Collection is the ideal choice for couples and families, particularly those new to camping, seeking practical comfort on site. New tents and updates feature across the Collection to reinforce its leading position by building on superlative functional Outwell features and signature DNA.

PRIVILEGE FEATURES

01 **OUTTEX® 4000 FLYSHEET**
Specially commissioned by us, this smart, durable flysheet fabric has an effective, reliable hydrostatic head waterproof rating and enjoys subtle embossing with our graphic logo.

04 **CABLE ENTRY POINTS TO INNERS**
The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable entry points enable secure access without compromising safety.

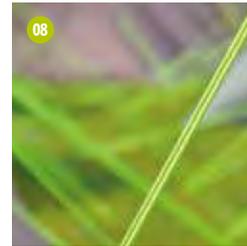

07 **TINTED WINDOWS**
With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

02 **PREMIER BEDROOMS**
Our Premier Bedrooms offer generous headroom and floor space for easier access and mobility plus mains Cable Entry points for power, Night Sky Ceilings and the additional benefit of Thermo-reflective coating for integrated sleep comfort.

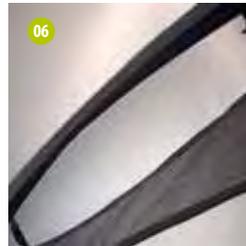

05 **REAR VENTILATION SYSTEM**
The Outwell Rear Ventilation System offers flexible options for regulating internal temperature and fresh air flow whilst maintaining effective waterproofing and stability through zipped closure and guyline adjustment.

08 **LUMINOUS GUYLINES**
As active campers, Outwell designers developed a simple, practical solution to the problem of tripping over unnoticed guylines – a simple solution that others have seized on since.

03 **OUTWELL WIND STABILIZER SYSTEM**
The patented Outwell Wind Stabilizer System is a huge and important innovation in tent stability, proven in development and in the field. It creates a direct attachment point between the outer tent, tent pole and peg for reliable security in gale-force, gusting winds.

06 **THERMO-REFLECTIVE COATING**
A Thermo-reflective coating is a barrier to radiant heat and is used above the inner tent to assist create the ideal ambience for sleep comfort.

09 **FLAT FRONT**
With a large door, the flat front offers easy access and maintains headroom.

ENCOUNTER COLLECTION

Sleeping from two to five people, the Outwell Encounter Collection of fast-pitching tents is ideal for touring holidays and has been a great success with lightweight campers. Popular with active couples and young families, the tunnel and dome tent styles offer a variety of options for long weekends and spontaneous getaways. Freedom is the keynote factor here with the Cloud and Earth ranges joined by the versatile Vigor tents featuring the Outwell Wind Guard System for outstanding stability in high winds. Smart designs, outstanding quality, close attention to detail plus inspired innovation set these Outwell designs above all others in meeting consumers' needs and exceeding their expectations. With inners left in place when packing up the tents, pitching again is really fast and easy.

THE ENCOUNTER COLLECTION

Ideal for couples and small families plus bearing in mind the demanding use of Encounter Collection lightweight tents by both new and experienced campers, features are carefully chosen to meet their demands for comfort, performance, mobility and speedy pitching when touring.

ENCOUNTER FEATURES

01 **OUTTEX® 3000 FLYSHEET**
Specially commissioned by us, this smart, durable flysheet fabric has an effective, reliable hydrostatic head waterproof rating and enjoys subtle embossing with our graphic logo.

04 **THERMO-REFLECTIVE COATING**
A Thermo-reflective coating is a barrier to radiant heat and is used above the inner tent to assist create the ideal ambience for sleep comfort.

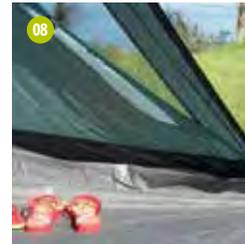

07 **DURATEC FIBREGLASS POLES**
Our own fibreglass-based blend of light, flexible materials offers exceptional strength and rigidity while reducing pack size and weight.

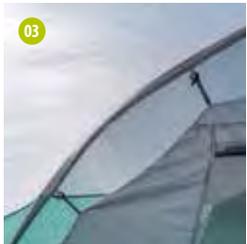

02 **DETACHABLE BATHTUB GROUND SHEET**
Durable bathtub groundsheet cuts out draughts, water ingress and crawling insects; easily removed for cleaning and fast to re-attach.

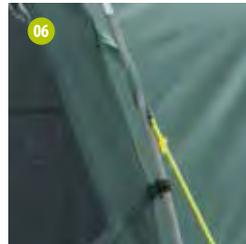

05 **D-DOOR ENTRY**
D-door entry with side access enables easy access and an airy, well-protected interior as the fabric can be rolled away completely when the sun shines and quickly closed up in bad weather.

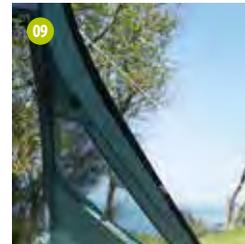

08 **TOGGLE-UP CURTAINS**
Toggle-up curtains behind the tinted windows ensure privacy when required.

03 **UNIQUE TAPED HANGING POINT SYSTEM**
Unique Taped Hanging Point System attaches the inners to the flysheet with a toggle through the suspension point taped to the tent for strength and security; inners can be left in place when packing up the tents.

06 **OUTWELL WIND GUARD SYSTEM**
The Outwell Wind Guard System ensures outstanding stability in high winds by securely bracing the tent flysheet via the sturdy poles to spread the wind force loading.

09 **TINTED WINDOWS**
With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Tinted windows not only add to a tent's style but also deliver practical benefits.

VIGOR 3

Sleeping three in one bedroom, the Outwell Vigor 3 is a versatile tent, perfect for lightweight camping with its Duratec poles and small pack size. The ingenious design offers standing room in the storage area, with a detachable bathtub groundsheet, and the option of pitching the large front door as a canopy using the upright steel poles supplied.

SPECIFICATIONS

- Art. No.: 110767
- Type of tent: Two room tunnel tent
- Sleeps: 3
- Rooms: 1 bedroom, 1 storage area
- Pitching way: Flysheet first or as one
- Flysheet: Outtex® 3000 (100% polyester taffeta) with taped seams
- Floor: Double-coated 100% polyethylene, 10,000 mm hydrostatic head
- Inner tent: Breathable 100% polyester
- Pack size: 24 x 65 cm
- Weight: 7.3 kg
- Poles: Duratec fibreglass 8.5/9.5/9.5-11 mm, Steel poles 16 mm
- Pieces per carton: 2

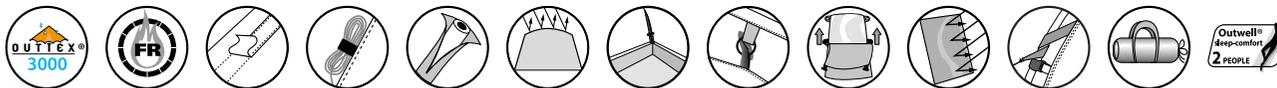

FEATURES

- The Outwell Wind Guard System ensures outstanding stability in high winds by securely bracing the tent flysheet via the sturdy poles to spread the wind force loading
- The twin parallel zips and two steel poles supplied allow the front door to be raised to create a canopy offering shade and shelter. Canopy side panels with zip fastening at the top can be rolled away and fastened securely when not needed
- Whilst maintaining full headroom at the storage area, the unique profile of the Vigor designs reduces overall tent weight and packed size
- Storage area with a detachable bathtub groundsheet offers plenty of space, protection and flexibility
- Ventilation at the rear of the tent allows an airflow to tackle condensation
- Inner has an integral, fully sealed groundsheet for draught-free nights and no crawling insects
- The pre-attached and adjustable inner tent makes pitching easy; it can be easily and quickly detached as required
- Fully seam-sealed flysheet for maximum protection from wind and rain

SMART AIR TC COLLECTION

Five new tents feature in the outstanding Outwell Smart Air TC Collection, building on its unrivalled reputation for inspired innovation, classic design heritage and superb quality. These large family tents offer generous space and impressive design detail for discerning campers seeking only the very best in performance and comfort. We transformed camping market standards with our interlinked Advanced Air Tube System, using Outwell One-Go Inflation Technology, and featuring our Gothic frame of pre-shaped tubes for maximising internal space. Our exclusive Outtex® Airtech polycotton fabric with its signature style offers a self-regulating interior climate for comfort. Royal Master Bedrooms offer plenty of floor space and headroom, plus cable entry points and superb all-round views.

THE SMART AIR TC COLLECTION

Each one of the smart tents, awnings and extensions of the Outwell Smart Air TC Collection combines style and practical comfort with renowned heritage. The truly inspired innovations featured in these superior designs will help campers build unforgettable family moments.

Ballantine 6SATC

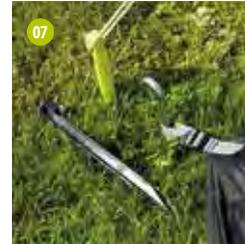

SMART AIR TC FEATURES

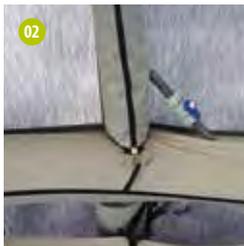

01 **OUTTEX® AIRTECH**
Our exclusive Outwell polycotton (65% cotton / 35% polyester) fabric delivers premium performance and a self-regulating interior climate for comfort throughout the seasons.

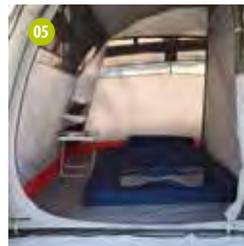

04 **CABLE ENTRY TO INNERS**
The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable entry points enable secure access without compromising safety.

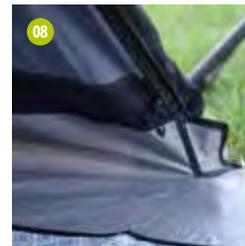

07 **OUTWELL EASY PEGGING SYSTEM**
Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and lasting stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

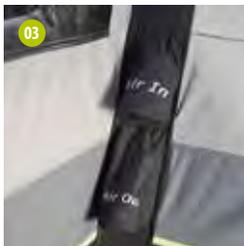

02 **ADVANCED AIR TUBE SYSTEM**
Our air tube tent support construction innovation has had a huge effect on the camping market. As a key element of our Air System technology, this offers one frame of interconnected tubes with isolation valves that help maintain structural stability.

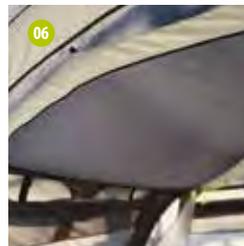

05 **ROYAL MASTER BEDROOMS**
Our Royal Master Bedrooms have enlarged inners, 250cm in length, offering stand up height throughout and more floor space for storage and mobility. With our new all-round windows and Cable entry points, campers can enjoy real and virtual access to outside.

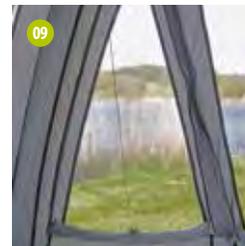

08 **OUTWELL SEALED GROUND SYSTEM**
A sealed-in groundsheet is the best way to keep draughts, insects, dirt and water out of a tent and is an early example of Outwell camping solutions. When the groundsheet is an integral part of the tent it ensures all-weather.

03 **ONE-GO INFLATION TECHNOLOGY**
Outwell One-go Inflation Technology is an inspired innovation that allows campers to plug a super-efficient pump into a single inlet valve and inflate the largest of tents in a minute – plug in, pump and go!

06 **NIGHT SKY CEILING**
Used in inner tents, the Night Sky Ceiling helps campers enjoy a comfortable night's sleep by cutting down internal light levels – great for adults as well as children. A clever solution for a daytime nap, early night, a lie-in or to help ensure early-rising children wake later.

09 **TINTED WINDOWS**
With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

ÉLAN COLLECTION

Contemporary colours with luminous piping, classic designs and inspired innovation are the signature style of the Outwell Élan Collection offering an impressive range of practical size and layout options with new designs and updates. Aimed at keen family campers, it features a dynamic combination of Power Air Tube technology and sturdy steel pole tents that all use our exclusive Outtex® 6000 HD embossed Taslon fully waterproof fabric. Ambassador Master Bedrooms with Night Sky Ceilings and cable entry points transform interior comfort with the help of our Thermo-reflective coating for cooler bedrooms. Also featuring large tinted windows and polyethylene groundsheet whilst the reliable Outwell Easy Pegging System makes short work of secure pitching. Durable trolley bags make for easy hassle-free transport.

THE ÉLAN COLLECTION

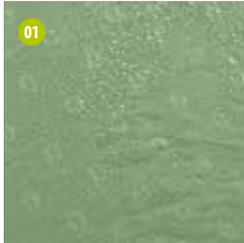

The outstanding Outwell Élan Collection is built firmly on the development of original design features that has marked our steady progress to become the leading name in family camping loved by campers of all ages. Innovation that leads the market and sets the agenda for others.

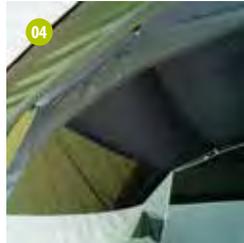

Wolf Lake 9E

ÉLAN FEATURES

01 **OUTTEX® 6000 HD EMBOSSED FLYSHEET**
Made to our own demanding specifications, this flysheet fabric has our highest ever hydrostatic head waterproof rating with the subtle embossing of our graphic logo and is embellished with our signature luminous piping.

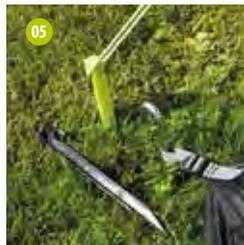

04 **NIGHT SKY CEILING & THERMO-REFLECTIVE COATING**
Night Sky Ceiling under flysheet Thermo-reflective coating helps create the ideal bedroom ambience for a daytime nap, a lie-in or ensure children waking later in the morning.

07 **CABLE ENTRY TO INNER TENTS**
The changing face of modern camping means that campers of all ages expect readily accessible power sources for electronic devices as well as lights. Cable entry points enable convenient access.

02 **ZIP-UP CURTAINS**
With quick and easy zip opening and closure, these curtains give full flexibility of choice between total privacy, letting in some daylight or enjoying the views.

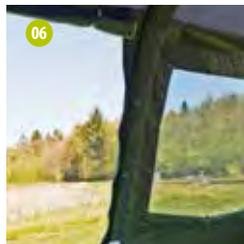

05 **OUTWELL EASY PEGGING SYSTEM**
Simple, effective colour-coding allows three peg types to fulfil their specific functions in the right place first time for fast pitching and lasting stability – grey steel at the tent's corners, luminous pegs with the guylines, and black plastic pegs for general pegging.

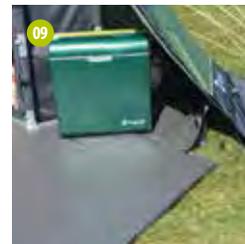

08 **SEALED GROUND SYSTEM**
Fully waterproof, our tough and durable polyethylene groundsheet fabric is flexible in use and can cope easily with the demands of tent life from kids' rough play to dragging chairs and tables around.

03 **AMBASSADOR MASTER BEDROOMS**
At 250cm in length, Ambassador Master Bedrooms offer generous floor space and headroom for comfort and convenience. With a rear window and mains cable entry points, campers can enjoy true windows on the world.

06 **TINTED WINDOWS**
With a special developed coating that reduces the penetration of harmful UV radiation, the sun's heat and glare are reduced whilst allowing wide views with privacy. Large tinted windows not only add to a tent's style but also deliver practical benefits.

09 **FLAT FRONT**
With a large door, the flat front offers easy access and maintains headroom.

UTILITY TENTS

Offering versatile styles of shelter, the Outwell Utility Tent Collection provides a variety of flexible lightweight designs for use on campsites, in gardens or on the beach. Our quick-pitching, multi-functional Shelters and Windscreens offer more privacy and extend practical camping life options on site for cooking, eating or storage and are just as useful for parties in the garden, on picnics, at outdoor events and markets plus country shows. Optional side panels are available to fit all our freestanding shelters and sizes, extending their use as required. Optional Outwell Carpets and our innovative Dual Protectors also appear in this section, adding practical solutions to insulation and protection to further enhance the on-site comfort levels of Outwell tents.

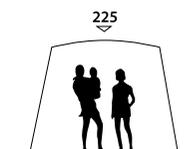

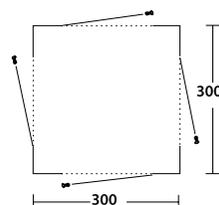

OKLAHOMA SHELTER

A true multi-functional design that's equally at home in gardens or on campsites, the Oklahoma offers versatile shelter with four doors for flexible opening; all four sides can be opened fully. A steel frame with pre-angled poles works in concert with the Outwell Wind Stabilizer System innovative thinking for outstanding stability whatever the wind direction.

Outwell
Empire the outdoors

DUAL PROTECTOR

An Outwell Dual Protector extends a tent's life by reducing UV damage to the roof and acting as a barrier against contaminants like bird droppings and tree sap. It also reflects the sun's heat and keeps the tent cool if used silver side up or reversed to reveal the black surface that soaks up the sun to heat the tent. When used silver side up a broad, deep, roll-up/zip-off canopy matches the tent's side door to create a sun porch when poled out.

- Protects the roof from bird droppings, liquids dropping from trees, UV rays, rain etc.
- Silver side out reflects the sun for a cooler tent
- Black side out warms up the tent in cooler weather and darkens tent interior for longer sleep
- Can be used alongside a front awning or extension
- UPF 50+ UV Protection
- Zip-off, roll-away side extension poles out to create sun porch over tent side door when silver side is out

CARPETS & INLAYZZZ

Many years ago, Outwell introduced carpets, colour-coordinated and tailored to fit individual tents, which offered new levels of comfort with extra insulation and a touch of luxury on site. Soft-touch carpet, featuring a waterproof PVC backing, was an Outwell innovation that campers immediately welcomed offering soft insulation. Now a camping essential, the option to slip off shoes and socks to enjoy 'barefoot camping' in comfort is a particular joy especially when the temperature falls in the evening. Our optional Inlayzzz mats offer underfoot bedroom comfort – supplied in three different sizes to suit use.

INLAYZZZ

Our optional Inlayzzz mats offer underfoot bedroom comfort – supplied in three different sizes to suit use.

Art. No.:.....170507: 120 x 200 cm / 170508: 140 x 200 cm
170509: 160 x 200 cm

Material:Fleece surface with 7mm PE insulated backing

- Super soft feel
- Acts as bedroom rug
- Supplied in carry bag
- Easy to fold for packing
- PE insulated backing

3-LAYER INSULATED CARPETS

Outwell padded carpets deliver sumptuous comfort in different sizes, customised to fit most tents. A luxurious feel is achieved by using a generous layer of insulation sandwiched between a waterproof base and soft fleece surface fabric for barefoot comfort.

Material:.....Front: Fleece, Centre: 3T PU foam, Back: 100% polyester PVC

- Wall-to-wall carpet
- Ground insulation
- Super soft feel
- 3-layer lamination technology
- Integral packing sleeve

FLEECE CARPETS

Delivering camping solutions is integral to Outwell so we have fleece carpet custom-made to fit each tent's living area and available as an optional extra.

Material:.....Front: Fleece, Back: 100% polyester PVC

- Wall-to-wall carpet
- Integral packing sleeve
- PVC protective backing
- Soft fleece surface

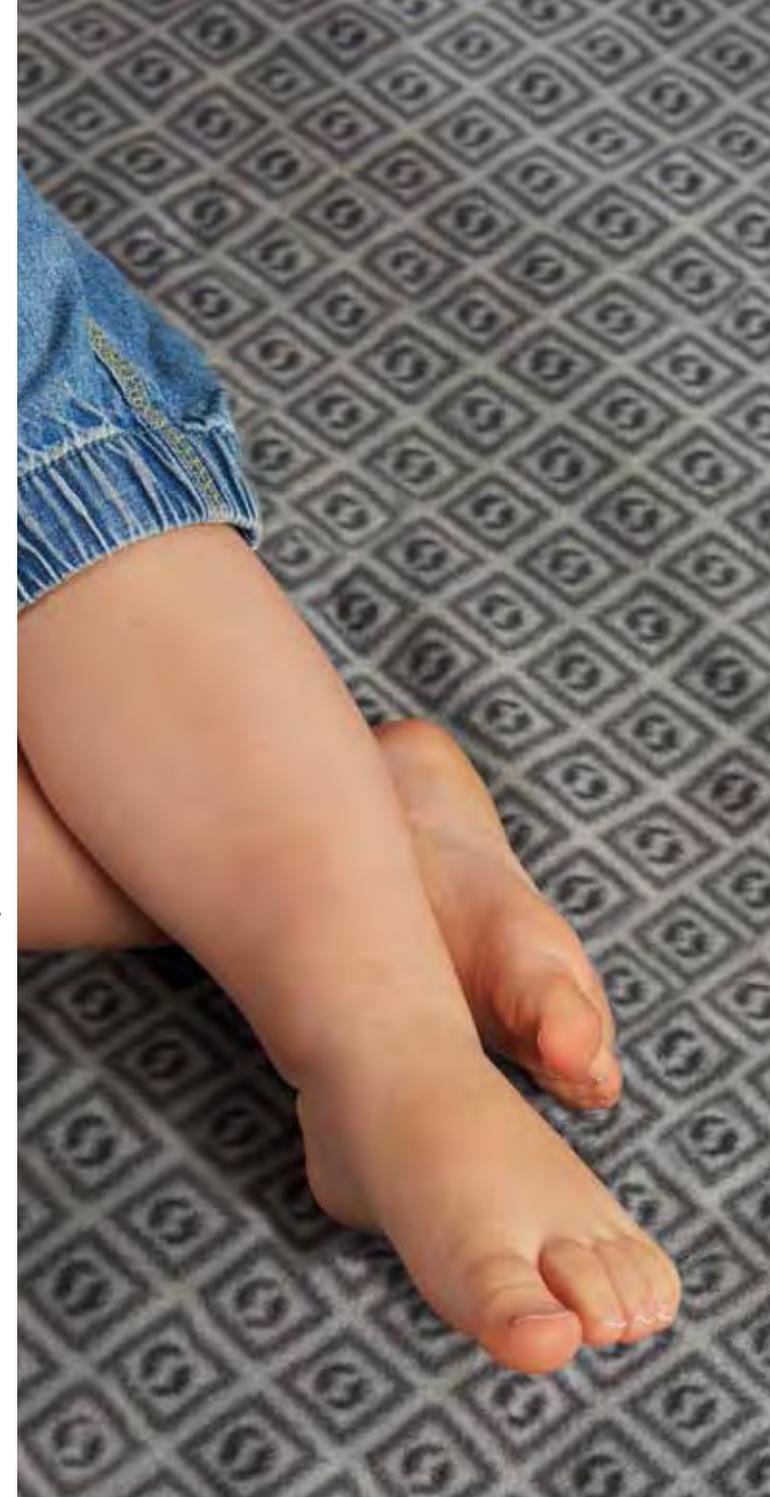

FLAT WOVEN CARPETS

These distinctive, popular Outwell tent carpets in a soft yet durable lylex fabric are custom-made to fit each tent's living area and are available as an optional extra.

AWNINGS REDEFINED

Home-from-home comfort

This is just a taste of the Outwell Caravan and Drive-Away Awnings you can explore in our separate catalogue dedicated to the innovation, inspired designs and versatile performance of the complete ranges.

Our awnings add space, flexibility and freedom for caravans and motorhome campers seeking versatile extensions to their units.

Adding spacious, airy living room to caravans and a freestanding, drive-away facility for motorhomes and MPVs, all designs are inspired by our Scandinavian heritage and our unrivalled record of innovation.

Integrated colourways ensure a signature style that marks Outwell quality standards. Whether owners choose models using one of our Air Systems or Duratec fibreglass poles, they can enjoy the full benefits of fully-featured designs. Large tinted windows, full standing-height and versatile wall and door opening options help families make the most of life outdoors with home-from-home comfort.

Outwell signature style and innovation run as clear themes throughout all eight ranges of striking awnings adding versatile living space to caravan, motorhomes and MPVs on site and on tour. Packed with features, all are quick and easy to erect for airy comfort and convenience.

SMART AIR AWNINGS - NORDIC SHORE COLLECTION

- **Outwell Advanced Air Tube System**
- **Outwell One-go Inflation Technology**
- **Outtex® 6000 HD fabric**
- **Pole-free Seal System**
- **Storm guylines**
- **Large fold-back front door panels**

Our Smart Air Nordic Shore Collection is inspired by our coastal landscape where sculpted dunes meet the sea, with fresh designs found across its ranges that include a choice of two Amber, four Tide and two Ripple awnings. The awnings offer versatile extra living space while pole-free connection to units and new Side Rain Shield above door entry add convenience. Caravanners can choose designs that include deep front canopy for shade and shelter, plus large door panels that fold back to seamlessly extend accommodation into the outdoors. The result is a new dimension of comfort to caravan living through roomy, well-crafted designs that are easily pitched and attached for fuss-free stable shelter from the elements.

AIR AWNINGS - NORDIC COAST COLLECTION

- **Outwell Rigid Air Tube System**
- **Outtex® 3000 HD fabric**
- **Storm guylines**
- **Tinted windows**
- **Large fold-back front door panels**
- **Full standing-height**

Inspired by images of the Nordic coast, innovation and cool style come together in the three designs of Pebble caravan awnings offering a deep 2.5 metre depth of versatile extra living space for discerning caravan owners. All offer Rigid Air inflatable technology with pre-shaped air tubes plus pole-free connection to units and fast-foot attachment of cross braces. Large curved windows are backed by curtains with a discreet sand ripple pattern to evoke a feeling of freedom. Our attention to detail includes new Side Rain Shield above door entry, zip-off panels to enjoy fine weather and storm guylines to cope with the worst.

SMART AIR TOURING

- **Outwell Advanced Air Tube System**
- **Outwell One-go Inflation technology**
- **Front canopy protects a large vent**
- **For vehicles with height of 180cm-205cm (Tall 290cm)**
- **Outwell Link Access Zone System**
- **Outwell Easy Pegging System**

Offering flexible extra space for couples and families touring with camper vans and MPVs, these inflatable drive-away awnings can be left freestanding to secure a site pitch on days out. Packed with innovation, comfort with style in these drive-away awnings with veranda-style front aspect options is assured by the signature style of our Charcoal Grey embossed fabric, luminous piping and guylines plus large tinted windows. The Outwell Link Access Zone with Side Door ensures a neat full-length, fuss-free connection with vehicles, cutting out draughts and complementing the Outwell Sealed Ground System.

AIR CRUISING

- **Outwell Rigid Air Tube System**
- **Optional 3-position inner tent**
- **For vehicles with height of 180cm-205cm (Tall 290cm)**
- **Outwell Link Access Zone System**
- **Outwell Sealed Ground System**
- **Flat Floor Door access**

Four versatile Outwell Air Cruising dome-style drive-away inflatable awnings offer flexible extra space with an optional multi-position inner tent. Smart Insignia Blue embossed fabric with luminous piping and guylines plus large tinted windows are our signature of style, quality and performance. Our innovative Outwell Link Access Zone System and side doors ensure a neat, fuss-free connection and easy access to vehicles, cutting out draughts and complementing the Outwell Sealed Ground System. Versatility is a key factor as they can also be used to provide fast, reliable shelter in gardens and outdoor markets.

TOURING

- **Pre-angled Duratec fibreglass poles**
- **Outwell Wind Stabilizer System**
- **Front wall can be opened completely**
- **For vehicles with height of 180cm-205cm (Tall 290cm)**
- **Outwell Link Access Zone System**
- **Outwell Sealed Ground System**

The new Outwell Touring Collection of drive-away awnings, with steel and Duratec fibreglass poles, can be left freestanding to secure a pitch. Packed with innovation, comfort with style in these tunnel designs is assured by the signature style of our new Charcoal Grey embossed fabric, luminous piping and guylines plus large tinted windows. Combined with our Outwell Wind Stabilizer System, the close fit, pre-angled brow poles and veranda-style front aspect options extend reliable performance. The Outwell Link Access Zone with Side Door ensures a neat full-length connection with vehicles, complementing the Outwell Sealed Ground System.

CRUISING

- **Pre-angled Duratec fibreglass poles**
- **Outwell Wind Stabilizer System**
- **Optional 3-position inner tent**
- **For vehicles with height of 180cm-205cm (Tall 290cm)**
- **Outwell Link Access Zone System**
- **Outwell Sealed Ground System**

Our new Outwell Cruising Collection of dome-style drive-away awnings uses Duratec fibreglass poles with our Wind Stabilizer System offers flexible space and convenience. Smart Insignia Blue embossed fabric with luminous piping and guylines plus large tinted windows are our signature of style, quality and performance. Our innovative Outwell Link Access Zone System and side doors ensure a neat, fuss-free connection and easy access to vehicles, cutting out draughts and complementing the Outwell Sealed Ground System. Versatility is a key factor as they can also be used to provide fast, reliable shelter in gardens and outdoor markets.

SLEEPING BAG COLLECTION

The Outwell Sleeping Bag Collection offers eight ranges of outstanding designs delivering superb comfort and quality for true home-from-home comfort. Our new Colibri range takes sleeping bag innovation to new levels of reliable performance and comfort with duvet-style versatility leading the exciting developments in style, features and colour updates. New to the Outwell Sleeping Bag Collection is Champion Kids, part of the popular range with top-performing levels of synthetic insulation fill matched with carefully selected outer fabrics, linings and components for optimised sleep comfort and warmth for adults and children. The Camper and Contour ranges enjoy updates whilst the popular range of Comfort Essentials includes smart, quilt-style Constellation Comforters, easy care cotton and polyester liners and a comprehensive range of cosy pillows.

OUTWELL SLEEPING BAG

Ultimate home-from-home

For many years, Outwell has worked hard to bring you the ultimate home-from-home camping experience. And our whole portfolio is designed and developed to ensure that you enjoy the best possible holiday. But one important aspect plays a huge role in how close we get to home luxuries – sleep comfort.

You can have the best and most exclusive tent, furniture or barbecue, however if you do not get a good night's sleep in comfort you will never relish outdoor life to the full.

One product vital to attaining bedroom nirvana is the sleeping bag. There are many high end sleeping bag manufacturers and the majority design their products for use in more remote parts

of the great outdoors. These sleeping bags are made to be as light as possible, as compact as possible and, not least, as warm as possible.

At Outwell, we have a different approach to sleeping bag design. We recognize the criteria relating to the ultimate sleeping bag for camping are very different to those used in a wilderness environment. And, our focus is on the development of that perfect sleeping bag for camping.

While the main function of the sleeping bag is to keep you warm at night, the majority of families only camp in the warmer months when overheating is more likely to be an issue than the risk of being cold. This means that for us the balance of sleeping bag ventilation with insulation is a priority.

Campers all agree that the freedom to move in a sleeping bag makes all the difference when it comes to a good night's sleep. Yet, how do you deliver this if you need a snug fit to keep you warm should night time temperatures fall?

After much research, we know that most people love the versatility provided by a duvet. It allows them freedom of movement and the ability to cool limbs as they overheat yet they can still snuggle into the duvet if the temperature falls. This is something we address when designing many of our sleeping bags.

Finally, we source and choose materials that enhance next-to-skin comfort yet retain the durability that guarantees your Outwell sleeping bag provides many a comfortable night.

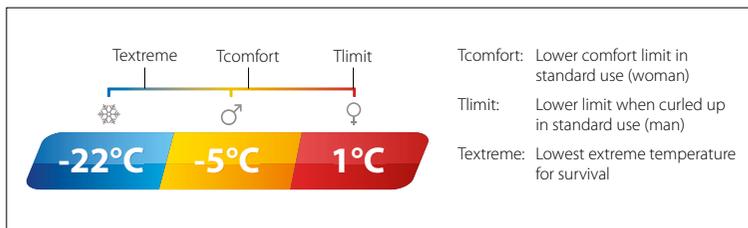

Our new Colibri range epitomizes our dedication to innovation and sleep comfort. We believe that you will not find another sleeping bag on the market today that provides such a high level of comfort and versatility through an intimate understanding of a camper's needs.

FEATURES & ICONS

Each Outwell sleeping bag benefits from innovative features designed for superb comfort and practical performance. With so many inspired features, we have created a neat system of icons for easy reference with explanations that enable access to the full benefits at a glance. Fabric and fill specifications, recommended comfort levels and the features that benefit campers in use can all be found quickly, readily identified and compared to enable the right choice to be made for all the family. Practical and convenient, the icons reflect the attention to style, function and design detail that marks each Outwell sleeping bag range.

EN 13537

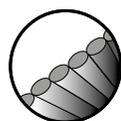

RECOMMENDED TEMPERATURES

Recommended temperature parameters are based on the insulation performance properties measured combined with research on how the human body copes with thermal conditions during sleep. Double bags are tested with only one mannequin so warmth generated and retained will be higher when used by two campers.

TEMPERATURE DETERMINATION

The European Standard EN 13537 on requirements for sleeping bags specifies the use of a computer-controlled thermal measurement mannequin to determine and compare the insulation values and temperature limits of sleeping bags objectively.

ONE LAYER
One layer of synthetic insulation is perfect for sleeping bags designed for warm conditions.

ONE LAYER PLUS
One layer of high quality synthetic insulation with extra fill and loft creates uniform warmth in sleeping bags designed for lower temperatures.

TWO LAYER OFFSET
Two layers of synthetic insulation are used and offset so each covers the other's seams for increased insulation.

ISOFILL PREMIUM
High quality insulation from Outwell. This highly siliconised and fine hollow-fibre insures an extra soft feeling and a great insulation value.

ISOFILL
An insulation material where every single filament is hollow in order to capture a greater amount of still, insulating air.

CONVERTIBLE
Convertible sleeping bags are adjustable at the foot and can be enlarged as the child grows.

SEASONS
We give every Outwell sleeping bag a season rating as a rough guide to their potential use in northern Europe, as follows:

- Season 1: Summer months.
- Season 2: From late spring through to early autumn.
- Season 3: From spring right through autumn.
- Season 4: All seasons but more suited to colder conditions.

HEAVY DUTY ZIPS
Our own specification heavy duty zips ensure ease with little wear over extended periods.

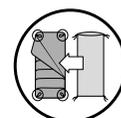

LEFT/RIGHT ZIPPER OPTION
For the user's comfort and convenience we provide the choice of which side a zip is positioned in a sleeping bag.

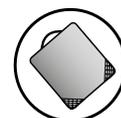

ZIP TOGETHER
Left- and right-hand options allow two sleeping bags to be connected to create a double.

ZIP INTO TWO
The Double sleeping bag zips into two single bags.

LINER ATTACHMENT POINTS
Sleeping bag attachment loop and liner snap closure fastening.

OUTWELL SACKS
Great style and practicality. We offer three types of sleeping bag storage: The Square Sack, the Cap Compression Sack and the Cave Kids Ruck Sack Carrybag.

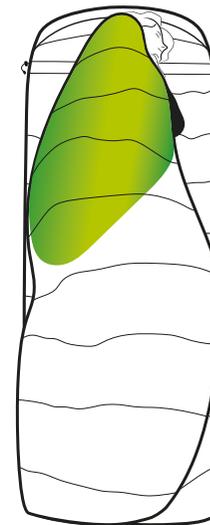

FEATURES

Colibri Sleeping Bags

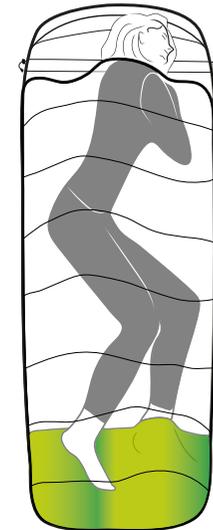

SIDE WINGS

Side extension panels – we call them wings for short - can be left folded in for a snug fit and body heat retention or opened wide for a roomier night's sleep.

DUVET OPTION

With full-length zips down both sides, the top can be unzipped fully for versatile use as a normal duvet or as a multi-purpose comforter on site or at outdoor events.

FOOT POCKET

A foot pocket lined with super-soft Micro Tricot stretch fabric allows campers to leave their feet out under the open end in normal conditions or tuck away their toes for extra warmth.

COLIBRI RANGE

The new Outwell Colibri range takes sleeping bag design to new levels of versatility, comfort and innovation with ample insulation and sculptured style. Packed with versatile features, it delivers a revolutionary duvet feeling with soft next-to-skin fabric for true home-from-home comfort in three sizes. Its flexible wings can be spread to make the upper 120cm wide to support different sleeping positions, it can be opened down both sides and can be unzipped fully to form a duvet. Campers can slip their feet into the snug foot pocket if cold or, if overheating, they can slip their feet out of the bag via an opening that sits over the pocket.

FEATURES

Constellation Sleeping Bags

RECTANGULAR SHAPE

The generous size of the non-tapered shape offers greater sleeping comfort through the night by allowing free leg movement and space to curl up.

CORNER LINER ATTACHMENT LOOPS

Outwell liners can easily be attached and detached by snap closure straps, the secure points are a practical solution to campers twisting up bag liners as they turn over.

FACE BAFFLE

An insulated soft cotton lining baffle runs across the opening of the sleeping bag improving next-to-skin comfort and keeping neck and shoulders warm on chilly nights.

ZIP-OFF HOOD

The generous-sized hood can be removed easily when a bag is used as a duvet or two singles are zipped together to form a double.

ZIP TOGETHER

Offering the flexibility of zipping two singles together to form a large double sleeping bag.

FULL-LENGTH ZIP BAFFLE

Running neatly behind the zip, the baffle ensures insulation runs the full length of the zip to prevent cold spots and draughts.

CONSTELLATION RANGE

Offering outstanding comfort levels usually experienced in high quality duvets for home use, the Outwell Constellation range of sleeping bags excels in delivering superb quality, inspired features, outstanding fabrics and premium filling without compromise. With a durable, ultra-soft, brushed outer, 100 per cent cotton lining and premium Isofill® filling, the three models – Constellation, Constellation Lux, Constellation Lux Double – offer ample room for supreme camping comfort.

FEATURES

Camper Sleeping Bags

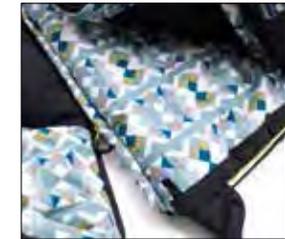

CORNER LINER ATTACHMENT LOOPS

Outwell liners can easily be attached and detached by snap closure straps, the secure points are a practical solution to campers twisting up bag liners as they turn over.

FULL-LENGTH ZIP Baffle

Running neatly behind the zip, the baffle ensures insulation runs the full length of the zip to prevent cold spots and draughts.

ZIP-OFF HOOD

The generous-sized hood can be removed easily when a bag is used as a duvet or two singles are zipped together to make a double.

OPENS UP TO FORM A DUVET

For greater versatility on site in any unit or for use at home, this sleeping bag can be unzipped fully to create a smart, cosy duvet.

ZIP TOGETHER

Offering the flexibility of zipping two singles together to form a large double sleeping bag.

EASY GLIDE ZIP SYSTEM

Our specially developed anti-snag system with auto-lock facility ensures the zips run freely and stay closed where they are needed.

CAMPER RANGE

The Outwell Camper range of polycotton sleeping bags is a firm favourite with discerning family campers and enjoys a sparkling update in outer and lining colours and patterns. Performance, comfort, style and design flair are assured by an impressive combination of materials, smart colours and a neat stitching pattern. With a super-soft, smartly-patterned cotton lining for a luxury next-to-skin feel, cosy comfort is assured by the Isofill® insulation and polycotton outers. All Camper models feature a zip-off hood, inside pocket and built-in pillow.

Innovative Family Camping

FEATURES

Colosseum Sleeping Bags

INSIDE POCKET

The neat, discreet inside pocket offers handy, secure storage for small items such as keys and change; ideal for a small head torch.

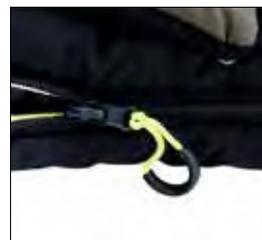

SIDE ZIPS FOR COMFORT

Side zips enable the upper half to be folded down to waist level for comfort in warm weather.

CORNER LINER ATTACHMENT LOOPS

Easily attached and detached by snap closure straps, the secure points are a practical solution to campers twisting up bag liners as they turn over.

EASY GLIDE ZIP SYSTEM

Our specially developed anti-snag system with auto-lock facility ensures the zips run freely and stay closed where they are needed.

FULL-LENGTH ZIP BAFFLE

Running neatly behind the zip, the baffle ensures insulation runs the full length of the zip to prevent cold spots and draughts.

FLIP UP COLLAR

Normally folded down, the collar can be flipped up to insulate the head and create a cozy duvet in cold weather.

COLOSSEUM RANGE

The synthetic fill polycotton sleeping bags of the Outwell Colosseum range – Single, Single XL and Double – have twin zips for maximising flexible use in a variety of climates and temperatures. With a full-length zip on one side plus a halfway opening zip on the other, cosy insulation can be snuggled into or folded back to suit. Zip baffles with smooth, anti-snag running avoid cold spots whilst the embossed logo lining adds a touch of style.

Contour Sleeping Bags

CORNER LINER ATTACHMENT LOOPS

Outwell liners can easily be attached and detached by snap closure straps, the secure points are a practical solution to campers twisting up bag liners as they turn over. (Except for Contour XL).

FULL-LENGTH ZIP Baffle

Running neatly behind the zip, the baffle ensures insulation runs the full length of the zip to prevent cold spots and draughts.

ZIP-OFF HOOD

The generous-sized hood can be removed easily when a bag is used as a duvet or two singles are zipped together to make a double.

OPENS UP TO FORM A DUVET

For greater versatility on site in any unit or for use at home, this sleeping bag can be unzipped fully to create a smart, cosy duvet.

EASY GLIDE ZIP SYSTEM

Our specially developed anti-snag system with auto-lock facility ensures the zips run freely and stay closed where they are needed.

BUILT-IN PILLOW

With our smart feature, there's no need to pack pillows from home for that extra touch of comfort in the tent.

CONTOUR RANGE

New colours and lining plus contoured stitching patterns and short side zips for flexible access and ventilation add to the classic design flair and features throughout our popular Outwell Contour range of square sleeping bags. All models enjoy an offset two-layer Isofill® performance fill under polyester pongee fabric. Key features, such as zip-off hoods with built-in pillows and the neat inside pocket, continue in the five models adding more convenience for happy campers.

FEATURES

Contour Junior Sleeping Bags

FULL-LENGTH ZIP BAFFLE

Running neatly behind the zip, the baffle ensures insulation runs the full length of the zip to prevent cold spots and draughts.

EYE-CATCHING STITCHING

Neat stitching patterns hold the insulation in place and add flair to the outer fabric's appearance.

ZIP-OFF HOOD

The generous-sized hood can be removed easily when a bag is used as a duvet.

OPENS UP TO FORM A DUVET

For greater versatility on site in any unit or for use at home, this sleeping bag can be unzipped fully to create a smart, cosy duvet.

EASY GLIDE ZIP SYSTEM

Our specially developed anti-snag system with auto-lock facility ensures the zips run freely and stay closed where they are needed.

BUILT-IN PILLOW

With our smart feature, there's no need to pack pillows from home for that extra touch of comfort in the tent.

CONTOUR JUNIOR

Outwell Contour Junior sleeping bags deliver cosy comfort for children in two colours – purple and blue. Benefitting from the same impressive quality as the Contour bags for adults there is no compromise on features and performance; these sleeping bags are only resized to fit youngsters. An inside pocket is ideal for treasures – or secret snacks!

New!

CAMPION JUNIOR

Art. No.: 230231 Red
 230230 Green
 Size:..... 170 x 65 cm (LxW)
 Body length:..... 140 cm
 Shell:..... 190T brushed 100% polyester
 Filling:..... 600 g isofill
 Lining:..... 190T brushed 100% polyester
 Zipper: 2 way open - auto lock, L-shape
 Construction:..... Two layer offset
 Weight:..... 1000 g
 Pack size:..... 35 x 20 cm
 Pieces per carton: 6

FEATURES: Anti-snag zip guard, Comfort hood, Full-length zip baffle, Easy glide zip system, Inside pocket for storage of small essentials, Cap compression sack.

CAMPION JUNIOR

Though junior in size (W 65 x L 170 cm), there is no compromise on performance in the Outwell Campion Junior sleeping bag that offers the same colours, classic design and competitive edge as the adult models. It features a polyester outer, cosy brushed polyester lining and a double layer of top-performing Isofill® insulation. Packed with practical Outwell inspiration, these bags will deliver reliable comfort year after year; all feature an inside pocket for small items.

Innovative Family Camping

FEATURES

Convertible Junior Sleeping Bags

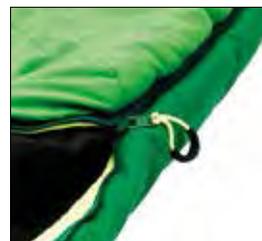

FULL-LENGTH ZIP BAFFLE
Running snugly behind the zip, the baffle ensures insulation runs the full length of the zip to prevent cold spots and draughts.

ADJUSTABLE LENGTH AS CHILD GROWS
An ingenious, flexible design feature that avoids the need for parents to buy new sleeping bags every year.

UNIQUE SHAPE WITH FOOT BOX CONSTRUCTION
Extra room at the end of the sleeping bag prevents bent toes or cold spots through insulation compression.

EASY GLIDE ZIP SYSTEM
Our specially developed anti-snag system with auto-lock facility ensures the zips run freely and stay closed where they are needed.

INSIDE POCKET
An inside pocket is ideal for treasures – or secret snacks!

COMFORT HOOD
An insulated baffle runs around the hood to minimise body heat loss, keeping head and neck warm with a snug fit.

CONVERTIBLE JUNIOR

Designed specifically for children, Outwell Convertible Junior sleeping bags offer cosy comfort for boys and girls in two stylish colours – purple for the girls and a green for the boys – with a key practical feature that's sure to appeal, particularly to parents. The length of the bags can be increased from 140cm to 170cm extending their usable life as children grow and making them firm favourites over time with loads of happy memories of unforgettable family moments.

SELF-INFLATING MATS

Outwell Self-Inflating Mat ranges offer simple, fast, lightweight and reliable campsite comfort with inspired design options. Our dedication to providing the best in sleep comfort includes obtaining R-value insulation ratings that are proven after extensive testing by top laboratories, plus the development of our unique and patented Outwell Air Flow Control (AFC) self-inflating valve design for faster inflation, deflation and for fine-tuning firmness. Durable and reliable in use, our AFC valve offers flexible operation through three positions. Singles and doubles in our Dreamboat, Dreamsleep, Dreamcatcher and Sleepin ranges offer a versatile range of options for fixed base campers with styles also designed for lightweight touring comfort. Our Comfort Essentials Range complements the self-inflating mats with stretch sheets.

FEATURES

For Self-inflating mats

R-VALUE

For all Outwell mats

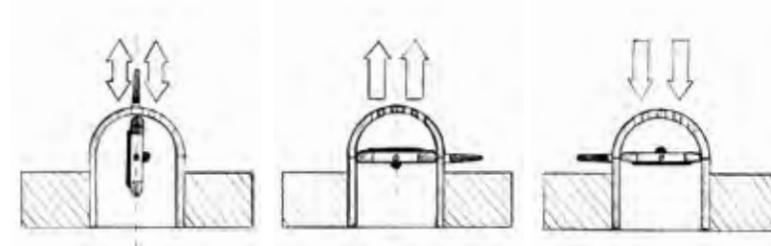

The R-value is a standard measure of a material's thermal resistance. We use an independent test company that has developed a method to obtain Self-inflating Mats R-values, to provide an accurate rating as a comparison guide between Self Inflating Mats – the higher its R-value then the better insulation it provides.

AIR FLOW CONTROL VALVE

Exclusive to Deepsleep and Dreamcatcher

We have created and patented our Outwell Air Flow Control Valve (AFC) to enhance performance and convenience by addressing the way we inflate, adjust and deflate a self-inflating mat. It overcomes age-old problems by delivering faster and easier inflation, deflation and fine-tuning firmness to suit individual preferences. Flexible and effortless operation is achieved through its simple inflate, deflate and air tight positions. Durable and reliable, it incorporates a mesh filter to protect its internal components from contamination. Our highly efficient AFC valve is a clean and ingenious Outwell solution that marks another major innovation in our long history of leading the field.

INFLATE POSITION

In this position air can easily enter the mat. The valve design also maximizes airflow to further speed inflation as the foam expands.

DEFLATE POSITION

The valve only allows the removal of air for fast, simple and easy deflation and packing.

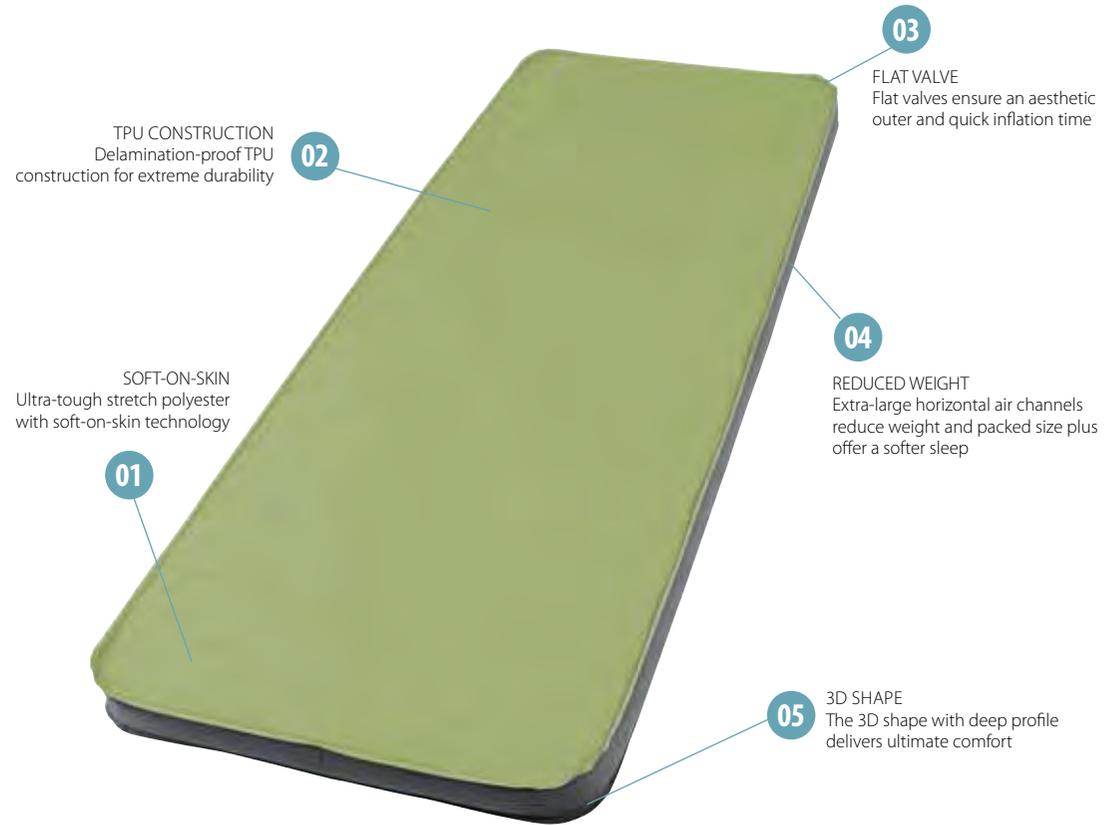

AIR TIGHT

In this position the valve prevents air from leaving the mat while allowing more to be blown in to adjust firmness.

EASY TO OPERATE
Large valve handle and markings ensure quick easy operation.

DREAMBOAT RANGE

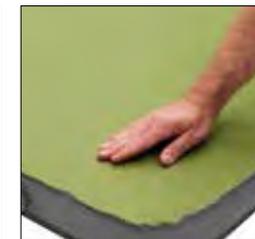

Outwell Dreamboat self-inflating mats epitomise SIM comfort. Twin valves are used in the mats for efficient inflation/deflation. Impressive insulation values, premium materials and adjustable mattress firmness for support offer inspired packages of camping comfort. Considering their deep profiles and extra width, the range offers low weight and packed size in the four models.

DEEPSLEEP RANGE

All models in the Outwell Deepsleep range use hard-wearing, quality fabrics with top-performing foam for true home-from-home levels of comfort in a choice of sizes to suit personal preference. Our outstanding patented Outwell Air Flow Control Valve delivers fast and easy operating options in a durable, reliable design; twin Outwell valves are used in the double mats for enhanced efficiency. Horizontal channels in the foam reduce weight and pack size.

Innovative Family Camping

FLOCKS, AIRBEDS & SLEEP SYSTEMS

Delivering outstanding sleep comfort is a key goal of the versatile Outwell Flocks and Airbeds Collection. From 3-layer single and double Flocks with a built-in pump to high quality single and double Flow, Reel and Box airbeds, all ensure home-from-home comfort on site. Our ingenious Cimelia and Cubitura Airbed sleep systems integrate foam toppers and quilted microfibre covers for versatile design options. Underlining versatility, the collection extends sleeping options at home for guests and children's sleepover parties.

FLOCK SUPERIOR WITH BUILT-IN PUMP

Our single and double 3-layer Flock Superior feature a built-in electric pump for convenience; the pump comes with a plug to connect to an external power supply. The Flock design allows campers to sleep well clear of the ground and Flock Superior takes that height up to 45 cm not only offering insulation and sleep comfort but also make getting in and out much easier. The raised all-round edging offers firmness for extra stability and the tough PVC material copes easily with the demands of camping life. Extra high in a stylish Grey colour with a soft stylish Light Grey velour top for a soft, warm feel.

FLOCK SUPERIOR DOUBLE W. BUILT-IN PUMP

Art. No.: 290103

DEEP COOL RANGE

The Outwell Deep Cool portable cool box, with cooler and freezer functions, is an exciting innovation that allows campers to store frozen food in their tents or vehicles. Easily portable, the sturdy design has strong carry handles, a removable basket and is available in two sizes. The 35 L model, with adaptor, enjoys 12V/230V power options and the generous 50 L model benefits from 12V/230V. Both have EU & UK mains cord; a digital, adjustable display function. The powerful compressor motor offers temperatures down to -18° C with efficient sound suppression so as not to disturb sleep.

New!

ALBATROSS RANGE

Available in two sizes (Medium and Large), the Outwell Albatross range of cooler bags offers a versatile facility for keeping food fresh and drinks cool on site or on days out. A well-insulated outer with high insulation value from its lining of 10 mm foam contains a solid, removable interior box that allows easy cleaning. The zipper-free lid is virtually airtight and thus cutting air circulation for better insulation. Easy to carry, the adjustable strap has a padded sleeve for comfort and an outer pocket is useful for picnic items. Tested to BS EN 12546-2:2000, it can be used with ice as well as freezer blocks.

New!

PELICAN RANGE

The new Outwell Pelican range uses air insulation allied to aluminium foil linings in three designs, including a versatile duffel style, that will keep contents cool for approx. 15 hours. Their self-inflating design means they function with the same principle as inflatable sleep mats. Easy to deflate, they can be folded flat for storage and re-inflated in seconds when needed. Their insulated internal linings are leak-proof whilst the large zipped opening offers easy access. A smart colour combination of grey and white is available in capacities – 20 L, 25 L and 30 L.

FURNITURE COLLECTION

The Outwell Furniture Collection delivers Scandinavian heritage, design and quality, matching smart colourways and materials with superb style to reinforce and extend our market leading position.

Our designers have been busy combining inspired concepts and innovation with practical styles and materials to develop outstanding furniture with a clear focus on comfort and reliability. New collections, new products and new colours feature throughout a wide variety of options. Smart style makes them equally at home on garden patios, extending their versatile use. Our Folding Furniture Collection enjoys smart new colour options plus a new Relax Range whilst our new Weston Hills chair has an ingenious cover which can be used also as a neck or lumbar support.

The popular Black Top Collection enjoys new models of light, sturdy chairs and tables. Our Summer Range has new vibrant patterns for shelters and chairs which sets the holiday mood. Our new Inflatable Furniture Collection includes original designs with soft covers and built-in pumps in Lake Superior and Lake Huron. Ever popular, our Ergo Flexi Collection extends its unique position and appeal with new designs and the latest armrest that's shared with the Ergo Prime Range that also enjoys updated Textiline fabric while Ergo Core has new models. The Bamboo Collection has earned its status as a campsite favourite whilst our Kitchen Tables, Cupboards and Wardrobes see the introduction of our revolutionary magnet door closure on many models.

SUMMER COLLECTION

With versatile designs and practical features, the Outwell Summer Collection offers great options to relax in style outdoors. The new distinctive, woven pattern brings together bright, lively colours that add a vibrant look and clear identity to the whole range. Durable, high strength steel frames and high quality hard-wearing polyester fabric deliver reliable performance. The wide range of seating styles are joined by the Comallo that features large flat feet and armrests. Our easy to set up Beach Shelters are ideal for days by the sea or in the park and have an excellent sun protection factor of +50 UPF, offering more than wind protection, privacy and shade. Stable designs can be secured easily by pegs and weighted with sand but moved quickly as need when required.

SAN JULIAN SHELTER

The freestanding Outwell San Julian shelter offers a large sheltered area in a flexible dome-style tent with sewn-in groundsheet. Open on two sides, one extra wall is supplied for extra wind protection and privacy. Two Durawrap fibreglass poles threaded through sleeves and secured with ring and pin system form a stable frame over the groundsheet.

SUN PROTECTION
FACTOR

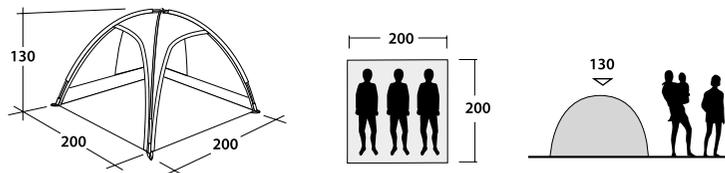

SPECIFICATIONS

Art. No.: 110840
Type of tent: Shelter
Pitching way: In one
Flysheets: Outtex® (100% polyester taffeta)
Floor: 100% Polyester, PU coated

FEATURES

Improved armrest

NARROW GRIP
Narrow grip for easy back adjustment

HAND GRIP
Profiled grip for easy adjustment

ANTI-SLIP
Anti-slip pattern for forearm comfort

We have redesigned the profile of our armrests and added an anti-slip finish to enhance forearm comfort and provide easier adjustment of the chair's back angle by improving grip through positive hand location offered by the ergonomic shape.

ERGO FLEXI COMFORT COLLECTION

The luxurious Ergo Flexi Comfort Collection of padded cushion chairs, loungers, bed and a footrest benefit from a quick-drying foam padding and Textiline mesh fabric. Updated designs with improved armrests are joined by the new Galana four-position lounger and the Kiana dining stool with supportive back. All Teton, Kenai, Grand Canyon, Acadia and Samoa have an adjustable, integral head rest and feature a quick drying material to prevent the padding from soaking up water if left out in the rain.

New!

FEATURES: Opens and folds in seconds, No assembly required, Sturdy aluminium frame, Telescopic legs for easy height adjustment, Oversized flat, moveable feet for enhanced stability on uneven grounds.

STORAGE COLLECTION

Home-from-home comfort extends way beyond sleeping, seating and shelter for family campers. Keeping tents clean and organised is essential for peace of mind – and hygiene! Camping chefs appreciate the convenience and ease of units designed for stoves, with storage options, whilst storing away clothes, footwear, pans and food makes as much sense on a campsite as it does at home. The Outwell Storage Collections deliver Kitchen Tables with worktop options, Cupboards and Wardrobes plus neat bedside units that are all stable, simple and fast to set up without fuss but adding easily accessed, flexible storage space. That flexibility is underlined by our innovative magnet door options. Secured with sewn-in magnets rather than zips, each door is set up quickly with a fibreglass frame that can be removed for rolling away the door and toggling it open.

KITCHEN TABLE COLLECTION

The versatile designs of the Outwell Kitchen Table Collection offer durable, stable surfaces to prepare and cook a meal with practical design flair. The Padres and Padres XL have solid bamboo table tops plus handy storage options in a stylish black/grey fabric. The Vancouver and Regina designs are made from durable embossed polyester fabric with zip doors.

BURNER STOVES & GRILLS COLLECTION

The products featured throughout the Outwell Burner Stoves and Grills Collection combine our inspired innovation and outstanding Scandinavian design flair. Careful consideration of campers' needs has resulted in a range of compact models that offer a wide choice, meeting all outdoor cooking demands and family size. Our easy to operate, efficient designs offer versatile cooking options to suit the most demanding camping cooks and deliver reliable sources of controllable heat without compromise. Three ranges of portable gas burner stoves – Gourmet Cooker, Chef Cooker and Appetizer – offer high performance options whilst the neat Grills extend campsite cooking flexibility and fun. Accurate flame adjustment and convenient auto piezo ignition ensure cooks stay in close control of heat output. Single, twin and three burner designs, fold-out windshields and non-stick griddle options offer versatile meal preparation and easy cleaning.

COLLAPS COLLECTION

The superb Outwell Collaps Collection has grown from its ground-breaking 'First in the Field' launch several years ago to a wide range of ingenious silicone designs for discerning campers.

Year on year, the collection has been enhanced and extended with new products and colours. With its unique blend of innovation, inspired design and vibrant colours, the hugely successful kitchenware, tableware and storage solutions have become an essential part of our one-stop shop approach to family camping.

Setting the standard in cool design, it takes up minimal space in transit and storage when not needed on site or at home. BPA-free, the complete range is made from non-toxic materials and is tested to EU standards. Folding flat for convenient storage, smart ingenuity and design flair combine to build sustained sales success. Kitchenware offers kettles, a new colander, washing-up bowls and cutting boards; tableware has mugs and bowls whilst storage solutions include boxes, baskets and buckets. A set of contemporary bowls and a highly practical water container complete this highly desirable collection. A lively colour palette with new colours of Terracotta and Deep Blue offers a wide range of style options complementing the cool tones of Outwell tents, awnings, furniture and equipment for discerning campers.

COOKING & TABLEWARE

As the one-stop shop for family campers, we have a wide range of superb products for cooking and eating on site in the versatile Outwell Cooking and Tableware Collection of practical designs and inspired innovation. From breakfast to dinner, Outwell has the perfect pot or pan complemented by the smart plates, bowls, mugs, kettles and cooking essentials featuring the design flair and attention to detail seen throughout all our tent and equipment collections. Smart colours and stripes in tableware plus new versatile Fiesta cook set and kettle, and a new Collaps Saucepan, all underline the value of designs for home-from-home comfort and convenience. Our Cook Sets, Tea Break Kettles, Beverages, Bamboo tableware, Melamine tableware, Accessories and Water Carriers all add essential elements to campsite life.

COLLAPS COOKING

The trend-setting Outwell Collaps Collection offers practical kitchenware, tableware and storage solutions in vibrant colours, which combine inspired styles with sparkling innovation that allows products to be conveniently folded flat to take up minimal storage and transit space. The ingenuity and design flair has wide appeal mirrored by sustained sales success.

FEAST COOK SETS

Lightweight, durable pots and pans in the Feast Cook Sets are made in quality aluminium with a durable non-stick cooking surface and a ferrous insert for use on induction hobs. Secure, easy-grip black soft-touch handles complement the smart matt grey finish, making all of the pots, pans and stainless steel lids safer to lift and carry when hot. For transport and storage, detachable handles on the Saucepans and Frying Pans allow them to be packed in the Casserole Pot for storage and transport.

PUMPS, ELECTRICS AND LANTERNS

With mains power now a common feature on tent pitches, Outwell Pumps, Electrics and Lanterns add the extra dimensions of convenience, and comfort on site that are now sought by family campers. Our hugely efficient 12V Tent Pump with auto-stop pressure setting and LCD display is easier and quicker to use whilst our wide range of Airbed Pumps offer 12V and EU/UK mains operation for setting up sleeping space with a vacuum and a rechargeable option. Our super Lantern range enjoys smart new colours to match the versatile Collaps hanging light range which also has a new colour and new models. Reflecting the changing face of modern camping, the new Obsidian lantern has a controllable wireless speaker plus an audio cable, dimmer function, built-in microphone for mobile phone integration and a music playing time of up to four hours.

PUMPS

Supplied with nozzle options to suit a variety of needs, our efficient, reliable electric pumps, suitable for 12V, 5V or EU/UK mains supply, generate high volumes of air quickly and safely. Wind and Air Mass are new rechargeable pumps whilst our new manual High Pressure Tent Pump has a smooth effortless action and our Power Bank offers instant mobile energy.

PATIO HEATERS

Mornings and evenings can feel chilly on site but that can be a thing of the past for campers with the convenience of the 230V Outwell Patio Heaters. Providing instant warmth inside and outside the tent through halogen elements that offer safe, odour-free heat, they deliver outstanding performance. Both heaters come with a pre-attached plug on the useful cable and the light, strong aluminium casings can be suspended securely. Etna has one 700W setting whilst the larger Fuji offers a choice of 600W or 1,500W.

Innovative Family Camping

ACCESSORIES

Outwell Accessories form a neat collection of items for 'housekeeping' in and around tents. From essential items that are sometimes mislaid to those that help to keep tents clean and tidy, such as our new space-saving Telescopic Broom, they are here to help tackle accidents and maintenance. Outwell is the one-stop shop for these outdoor essentials and all campers can be confident that they have the tools to handle the daily chores to make tent life comfortable, secure, safe and healthy. As well as such essentials and spares, we are meeting the needs of campers who prefer to be self-contained by maintaining hygiene standards with new colours in our range of portable toilet and related accessories. Our fabric cleaners and proofers allow campers to tackle routine maintenance easily without fuss.

ACCESSORIES

Keeping the tent and equipment tidy is the foundation of effective camping hygiene whilst comfort often depends on simple measures such as tackling biting insects or keeping mud outside the tent – where it belongs. Outwell accessories offer solutions to comfort your needs.

AFTER SALES SERVICES

At Outwell, all of us share the brand values that have driven our commercial and critical success over the years. Our designers and product developers bring inspired innovation and design flair to the family camping market whilst our sales and marketing teams bring focused support to our retail partners to drive consumer interest, engagement and your sales. That support extends from sustained brand and product marketing via all modern media channels through our online Dealernet to our After-Sales Support team. In these

ways, we all work together with our retail partner network to create unforgettable family moments outdoors, building a firm consumer base loyal to the brand and the dealers they have come to trust. As a trusted, creative and supportive partner, we never stop evaluating the effectiveness of our products, operations and brand appeal to extend commercial success. Content, appearance and identity are all aimed at generating retail sales, consistent revenue and profit.

Social Media - Outwell is active and highly visible across all channels with a strong following of passionate fans and a high profile with influential bloggers. Interacting online continually with campers is demanding but rewarding in spreading positive messages, sharing developments and driving footfall.

Outwell.com – our lively website is enjoyed by campers for the latest product information, inspiration and entertainment. Offered in six languages, it is a truly international tool for dealers, retail staff and consumers that enjoys a strong following. Allied to our YouTube channel, it's a great resource for building sales.

After-Sales Support – our commitment is to offer business support, resolve issues quickly and fairly, and to help you enjoy further commercial success. Returns can be quickly registered via the Dealernet using the online returns form, removing the need to download and complete a document by hand.

Consumer shows and national bodies – exhibiting at national consumer shows raises our brand profile and offers the opportunity to spread the word about Outwell innovation and Scandinavian heritage. By working closely with organisations such as the UK's Camping and Caravanning Club, we reach out to 100s of 1000s of active consumers.

Outwell Dealernet – provides our dealers with flexible access to a superlative B2B resource that includes product information and images, tent information displays and the tools to tailor individual needs whenever it suits. The Dealernet can be accessed via oase-outdoors.com
